**PART I
REGIONAL MUNICIPALITIES****2.—(1) In this Part,**

“annual sum required for regional purposes” means the amount required in 1993 by a regional municipality for general regional purposes including the sums required for any board, commission or other body but excluding sums required for school purposes;

“apportionment” means an apportionment of an annual sum required for regional purposes among all the area municipalities within a regional municipality made under the Act establishing the regional municipality;

"average municipal commercial mill rate" means, in respect of an area municipality, the rate obtained by dividing the total taxes levied for all purposes, other than for school purposes and under sections 33 and 34 of the *Assessment Act*, on the commercial assessment for the preceding year by the total commercial assessment for the preceding year, multiplied by 1,000;

"equivalent assessment" means the sum of,

- (a) the valuations contained on the last returned assessment roll for which payments in lieu of taxes on real property and business assessment, including a payment in respect of regional levies, are payable, but reduced where payment is predicated on the current year's residential and farm mill rate, by multiplying that assessment by the appropriate upper tier discount factor for purposes of determining a discounted assessment for that area municipality,
- (b) the amount determined by dividing the 1993 entitlements under section 157 of the *Municipal Act* less any adjustments made in 1993 to correct prior year entitlements, by the average municipal commercial mill rate and multiplying the result by 1,000,
- (c) the amount determined by dividing the 1992 entitlements under the *International Bridges Municipal Payments Act, 1981* and any agreement providing payments in lieu of taxes for international bridges, by the average municipal commercial mill rate and multiplying the result by 1,000, and

"special regional area" means an area comprised of those area municipalities among which a special levy is to be apportioned in 1993.

(2) For the purposes of this Part, the discounted equalized assessment of a regional municipality is the total of the discounted equalized assessments of all area municipalities within the regional municipality.

(3) With respect to each area municipality in the County of Oxford and in the regional municipalities of Durham, Halton, Hamilton-Wentworth, Niagara and York that receives payments in lieu of taxes from the Crown in right of Canada, the valuations contained on the last returned assessment roll for which such payments are payable by the Crown in right of Canada shall be used.

(4) If the Ministry of Finance receives notice on or before December 31, 1994, that the payments in lieu of taxes from the Crown in right of Canada have been reduced for 1993, the Ministry shall recalculate the valuations referred to in subsection (3) and shall notify the corresponding regional municipality or the County of Oxford, as the case may be.

(5) Subject to subsection (6), the apportionments for each area municipality under subsection (3) shall be deemed to be final.

(6) If valuations are recalculated under subsection (4), and if the council of the County or of a regional municipality, as the case may be, decides that the apportionments should also be recalculated, the council shall notify the Ministry of Finance and the apportionments for all area municipalities in the County or regional municipality shall be recalculated accordingly. O. Reg. 533/93, s. 2.

3. In 1993, the Ministry of Finance shall determine,

- (a) the discounted equalized assessment of each area municipality; and
- (b) the discounted equalized assessment of each regional municipality. O. Reg. 533/93, s. 3.

4. The Ministry of Finance shall, in respect of each regional municipality, determine the percentage share of apportionment, correct to three decimal places, for each area municipality within the regional municipality by dividing the discounted equalized assessment of each area municipality as determined under clause 3 (a) by the discounted equalized assessment of the regional municipality as determined under clause 3 (b) and multiplying the result by 100. O. Reg. 533/93, s. 4.

5. The discounted equalized assessment determined under clause 3 (a) and the respective percentage share of apportionment determined for each area municipality under section 4 shall be substituted for the weighted equalized assessment or equalized assessment in the notice of the weighted equalized assessment or equalized assessment of each area municipality that is sent by the Ministry of Revenue to a regional municipality and to the area municipalities under an Act establishing a regional municipality. O. Reg. 533/93, s. 5.

6. For 1993, the apportionment of an annual sum required for regional purposes among the area municipalities within a regional municipality shall be made on the basis of the percentages determined for each area municipality under section 4. O. Reg. 533/93, s. 6.

7.—(1) Sections 1, 2, 3, 4, 6 and 8 apply, with necessary modifications, to a special levy in 1993 and to a special regional area as if a special levy was the annual sum required for regional purposes of the regional municipality and the special regional area was the regional municipality.

(2) Despite any other provision of this Regulation, where the Act authorizing a special levy authorizes the special levy to be apportioned among area municipalities according to the assessment for a specified part of the area municipality and where a regional municipality proposes to use the assessment for only part of an area municipality in apportioning a special levy under that Act, the assessment for that part of the area municipality shall, for the purposes of subsection (1), be deemed to be the assessment for the whole area municipality. O. Reg. 533/93, s. 7.

8. If the equalization factor, the residential and farm assessment, the commercial assessment or the equivalent assessment, as determined under this Part, of one or more area municipalities is altered by the Ontario Municipal Board upon an appeal, the treasurer of the regional municipality shall determine what portion of the annual sum required for regional purposes would have been apportioned to each of the area municipalities within the regional municipality in 1993 under this Regulation. (3) Where only part of a municipality against which an apportionment is made by a conservation authority in 1993 is located within the conservation authority area, the discounted equalized assessment for that part of the municipality shall be deemed to be the discounted equalized assessment for the whole municipality for the purposes of this Part.

O. Reg. 533/93, s. 31.

32. The discounted equalized assessment determined under section 30 and the respective 1993 percentage share of apportionment determined for each municipality under section 31 shall be substituted for the equalized assessment in the notice of the equalized assessment that is provided to the conservation authority by the Ministry of Natural Resources under the Act establishing a conservation authority. O. Reg. 533/93, s. 32.

33.—(1) For 1993, the apportionment of the conservation authority levies among the municipalities within a conservation authority area shall be made on the basis of the percentages determined for each municipality under section 31.

(2) If a determination is made under subsection (1) in respect of an apportionment and levy of a regional municipality, county, district board or conservation authority, that apportionment and levy shall be adjusted in accordance with the corrected calculations and any overpayment or underpayment by a supporting municipality shall be corrected in the same manner as it is corrected following an appeal of a county apportionment by-law or of a discounted equalized assessment being used for apportionment purposes, as applicable. O. Reg. 533/93, s. 38.

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7 (4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10 (1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

Environmental Assessment Act Loi sur les évaluations environnementales

SECTION 14

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for Modifications to
 Hydroelectric Facilities

Proponent: Ontario Hydro

EA File No.: OH-GE-03

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on July 14, 1993. I have received no submissions after the acceptance of the Environmental Assessment and no notices requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking.

Having considered the purpose of the Act, the Environmental Assessment of the undertaking as accepted and the submissions received after the Notice of Completion of Review of the Environmental Assessment, I hereby give approval to proceed with the undertaking, subject to the following terms and conditions:

1. Except as otherwise provided by the subsequent terms and conditions, the proponent shall comply with all the provisions in the Class Environmental Assessment for Modifications to Hydroelectric Facilities as amended and accepted as set out below.
2. This approval shall expire the later of:
 - a) five years from the date of this approval;
or
 - b) such later date as the Minister determines, by publishing a Notice in the Ontario Gazette.
3. Upon the approval, by the Ministry of Environment and Energy, of a guideline setting out standard requirements for Class EAs, with respect to bump-up, procedures for amendments to environ-

mental reports, and monitoring procedures, this Class EA shall be revised to achieve consistency with those standard procedures.

4. Within one year of the date of this approval, Ontario Hydro and the Environmental Assessment Branch of the Ministry of Environment and Energy shall determine an appropriate procedure for monitoring and reporting on the effectiveness of this Class EA.
5. The Class EA document shall be amended to incorporate the changes as set out in the attached Appendix A.
6. The Class EA document shall be amended to incorporate the commitments to Aboriginal Relations, as set out in the attached Appendix B.

APPENDIX A

The amendments were made pursuant to subsection 7 (3) of the *Environmental Assessment Act*. Ontario Hydro is required to amend the Class EA for Modification to Hydroelectric Facilities document as outlined below to incorporate the amendments into its text. The amended wording is bolded for easy reference.

1. Section 3.1.1 (page 3-1) (paragraph 2) — the following wording should be included in this section, following the sentence “The redevelopment of generation facilities may not necessarily occur at the same locations, but may take place in the same general area as the existing facilities.”:

Through redevelopment, Ontario Hydro can take advantage of the existing infrastructure and water control facilities.

2. Section 3.1.1 (page 3-1) (paragraph 3) — the words “major” should be removed from the description of alterations included in a redevelopment.
3. Section 3.1.1 (e) (page 3-3) — the last sentence “if potential major environmental effects are expected” should be deleted.
4. Section 4.2.2 — a consultation point should be added as follows:

Ontario Hydro will notify the appropriate regional office of MOEE if potentially significant impacts associated with changes to the flow regime are predicted or expected in the construction and/or operating phases.

5. Section 4.2.6 — consultation point should be added as follows:

Ontario Hydro will notify the appropriate regional office of MOEE if potentially significant impacts associated with changes to the flow regime are predicted or expected in the construction and/or operating phases.

6. Figure 3, Environmental Assessment Matrix — under C. Resource Uses, 2. Water Based Uses, change Commercial Navigation to Navigation (commercial, aboriginal).
7. Appendix E — the dates of the by-laws cited should be included. “Model Municipal Noise Control By-Law, **August 1978**” and “Ontario Hydro Protocol for Community Noise Control, **1981**”.
8. Table 1 — the wording of the screening question for Fish Resources should be revised to better reflect the language of the *Fisheries Act*, as follows:

Will the proposed project result in the harmful alteration, disruption or destruction of fish habitat including significant reduction of resident or migratory fish resources ...

9. Table 1 — the wording of the screening question for Provincial, Community and Municipal Services and Facilities should be revised to clarify that it includes provincial highways, as follows:

Will the proposed project have potentially significant effects on the existing provincial, community or municipal services and facilities

(e.g., schools, water supply, sewage disposal, etc.) or transportation (e.g., **provincial highways, municipal roads** and associated structures)?

10. Table 1 — the following question should be added:

Access Roads — Will the future jurisdiction of a new or upgraded permanent access road be assumed by a government agency?

11. Table 2 — Wildlife, Fish or Plant Species should be revised to indicate that MNR is the initial contact for fish and fisheries resources and that the Department of Fisheries and Oceans will only be contacted where appropriate. Suggested wording is:

Ministry of Natural Resources (MNR District Manager) — all cases and where deemed appropriate by MNR, Department of Fisheries and Oceans. Committee on the Status of Endangered Wildlife in Canada (COSEWIC) ...

12. Table 2 — the following contact should be added:

Access Roads — Ministry of Transportation, Ministry of Natural Resources, and local municipalities.

13. Section 4.2.10, second paragraph — should be revised to read as follows:

If these issues can not be resolved, then the objector may submit a request for a “bump-up” (i.e., reclassification of the project to an individual EA status), to the **Minister of Environment and Energy**. After consulting with both parties and obtaining the necessary information, the **Minister of Environment and Energy** will rule that ...

14. Section 4.4.2 — should be revised as follows:

(c) If Ontario Hydro believes that a project reclassification is inappropriate and the party wishes to pursue the matter further, then Ontario Hydro shall advise the party that the request should be made to the **Minister of Environment and Energy**.

(d) Within fifteen days of receipt of a reclassification request, the Director of the Environmental Assessment Branch shall request Ontario Hydro and the concerned party to provide information explaining their respective positions within 30 days. After assessing the information, the **Minister of Environment and Energy** will choose one of the following actions ...

(e) If the [Director, or where appropriate, the] Minister of Environment and Energy ... (Delete wording in brackets).

(f) If the [Director, or where appropriate, the] Minister of Environment and Energy ... (Delete wording in brackets).

15. References to Regulation 205 should be changed to **Reg. 334/90**.

References to Regulation 308 should be changed to **Reg. 346/90**.

References to Regulation 309 should be changed to **Reg. 347/90**.

APPENDIX B

In order to address concerns about consultation with Aboriginal peoples, Ontario Hydro amended the Class EA for Modifications to Hydroelectric Facilities pursuant to subsection 7 (3) of the *EA Act* to include the following commitments to Aboriginal Relations. Ontario Hydro is required to incorporate the following amendments into its text:

1. Ontario Hydro will recognize the distinct legal, historical and cultural status of Aboriginal peoples in its relationships with them.
2. Ontario Hydro is aware that the Province of Ontario recognizes the inherent right of Aboriginal peoples to self-govern and is committed to negotiating Aboriginal self-government agreements with Aboriginal peoples. Since these government to government

agreements may address the management of natural resource and land use, and since Ontario Hydro, in many instances, will be seeking to obtain project approvals before such agreements are in place, frequent consultation with provincial authorities will take place.

3. Recognized barriers to developing an effective relationship with Aboriginal peoples will be addressed for each project. Specific objectives will include: identifying who speaks for the Aboriginal community, defining with the Aboriginal community the roles of the parties in the consultation process, and setting a planning process and schedule that accommodate Aboriginal decision-making structures.
4. When assessing and managing the social and environmental effects of projects, Ontario Hydro will consider effects not only on Aboriginal communities themselves, but also on the extensive areas they rely on for resource harvesting, cultural and spiritual activities.
5. Ontario Hydro is committed to achieving long-term benefits for Aboriginal communities whose traditional lands are affected by projects. These benefits may include, but not be limited to, the enhancement of employment and economic development through: training programs for the local workforce, local procurement during construction and operation, and local ownership of small hydraulic generation where appropriate.

REASONS

My reasons for giving approval are:

1. A class environmental assessment approval is appropriate for this class of undertakings. Since 1987, Ontario Hydro has planned and implemented modifications to hydroelectric facilities in accordance with a Class EA approval. This experience has demonstrated that the purpose of the *Environmental Assessment Act* is adequately met through compliance with their Class EA.
2. The new *Class EA for Modifications to Hydroelectric Facilities* is a significant improvement over the current Class EA. With the revisions to the new Class EA and the terms and conditions of this approval, the new Class EA will provide an efficient, effective and environmentally conscientious process by which modifications to hydroelectric facilities will be planned and implemented.

Required notification to MOE and those parties who were involved in the issue resolution during the screening process, indicating that the screening results are available upon request. The text and Figure 4 will be modified accordingly.

3. Figure 4. The term “groups” will be defined in the glossary.
4. Section 2.1: *Projects within the Class* will be replaced with the following:

Will the proposed project result in potentially significant degradation of water quality, (rivers, lakes, reservoirs, marshes, ponds, ground water)? **Are excavated materials contaminated?**

11. Table 1, page 3–7. Addition of screening question in the *surface water and ground water category*:

Will the proposed project result in potentially significant adverse effects on an area defined for protection of public water supply as specified under the Ontario Water Resources Act, Section 19 (1)?

12. Table 1, page 3–8. *Niagara Escarpment Plan* will be revised as follows:

“Will the proposed project be located within, or have potentially adverse effects on lands within the Niagara Escarpment Plan Area?”

13. Table 1, page 3–9. *Provincial, Community and Municipal Services and Facilities* will be revised to clarify that it includes provincial highways, as follows:

“Will the proposed project have potentially significant effects on the existing provincial, community or municipal services and facilities (e.g., schools, water supply, sewage disposal, etc.) or transportation (e.g., provincial highways, municipal roads, and associated structures)?

15. Table 2, page 3–10. Under *Surface water* add **excavated materials (i.e., soils, sediments) quality** and list the MOE Regional Office as the contact.

16. Table 2, page 3–10. This table will be amended to include a separate category for *Watershed/Subwatershed Management Plans*. The contact agencies/organizations will be listed as **MNR, MOE and the Conservation Authorities**. The document will be amended to indicate that **Ontario Hydro will have regard for watershed/subwatershed plans wherever they exist (see Table 2 for the appropriate government contacts)**.

ABORIGINAL RELATIONS

In order to address concerns about consultation with Aboriginal peoples, Ontario Hydro amended the Class EA for Shoreline and Riverbank Modifications pursuant to subsection 7 (3) of the *EA Act* to include the following commitments to Aboriginal relations. Ontario Hydro is required to incorporate the following amendments into its text:

1. Ontario Hydro will recognize the distinct legal, historical and cultural status of Aboriginal peoples in its relationships with them.
2. Ontario Hydro is aware that the Province of Ontario recognizes the inherent right of aboriginal peoples to self-government and is committed to negotiating Aboriginal self-government agreements with Aboriginal peoples. Since these government-to-government agreements may address the management of natural resource and land use, and since Ontario Hydro, in many instances, will be seeking to obtain project approvals before such agreements are in place, frequent consultation with provincial authorities will take place.
3. Recognized barriers to developing an effective relationship with Aboriginal peoples will be addressed for each project. Specific objectives will include: identifying who speaks for the Aboriginal community, defining with the Aboriginal community the roles of the parties in the consultation process, and setting a planning process and schedule that accommodate Aboriginal decision-making structures.
4. When assessing and managing the social and environmental effects of projects, Ontario Hydro will consider effects not only on Aboriginal communities themselves, but also on the extensive areas they rely on for resource harvesting, cultural and spiritual activities.
5. Ontario Hydro is committed to achieving long-term benefits for Aboriginal communities whose traditional lands are affected by projects. These benefits may include, but not be limited to, the enhancement of employment and economic development through: training programs for the local workforce, local procurement during construction and operation, and local ownership of small hydraulic generation where appropriate.

REASONS

My reasons for giving approval are:

1. A class environmental assessment approval is appropriate for this class of undertakings. Since 1987, Ontario Hydro has planned and implemented shoreline and riverbank modifications in accordance with a Class EA approval. This experience has demonstrated that the purpose of the *EA Act* is adequately met through Ontario Hydro's compliance with the Class EA for Shoreline and Riverbank Modifications.
2. The new Class EA for Shoreline and Riverbank Modifications is a significant improvement over the current Class Environmental Assessment. With the revisions to the new Class EA which Ontario Hydro is required to perform under the terms and conditions within this approval, the new Class EA will provide an efficient, effective and environmentally conscientious process by which this class of projects will be planned and implemented.

WORKERS COMPENSATION BOARD OF ONTARIO

IN THE MATTER OF Section 95 of the

Workers' Compensation Act,
R.S.O., 1990, W. 11, as amended:

AND IN THE MATTER OF the findings of the
Interim Report to the Workers' Compensation Board
on Aluminum, May 1992

Under Section 95 (15) of the *Workers' Compensation Act* (the Act), the Workers' Compensation Board of Ontario (the Board or the WCB) is publishing this notice of its acceptance or rejection of the findings of the Industrial Disease Standards Panel (IDSP), and the reasons therefor.

Between 1986 and 1988, the Workers' Compensation Board received claims for "elevated" levels of aluminum in blood. The claims were lodged upon the advice of the Ontario Workers' Health Clinic in Hamilton, Ontario. Staff at the clinic were concerned about the possibility of neurological damage, lung disease and death from exposure to aluminum. The Board based adjudication on an internal scientific report written by the Board toxicologist¹ and on the merits and justice of the individual case.

Because there was continued concern among workers regarding the potential health risk of aluminum, Dr. Robert Elgie, Chairman of the Board at the time, referred the issue to the IDSP on December 16, 1988. He asked the following questions:

- 1) Is there scientific evidence that occupational exposure to aluminum constitutes a health risk to workers?

If the answer to this question is yes, then I am asking the Panel to address the following questions:

- i) Are serum aluminum levels a good indicator for predicting the occupational health risks?
- ii) Under what conditions should a worker be removed from occupational exposure to aluminum?
- iii) What criteria should be used in the adjudication of claims arising from the adverse health effects?

On October 20, 1989, the Panel issued the IDSP Progress Report on Aluminum in the Workplace, which included a detailed literature review of the health effects of aluminum. The Board published the report in *The Ontario Gazette* on December 2, 1989 for information. The Board did not receive any comments. Since the report contained no recommendations or adjudication guidelines, no response was provided to the IDSP. The Board continued to adjudicate claims on the merits and justice of each individual case. To date, the Board's disease claims database has recorded 128 aluminum related claims, 23 of which reported symptoms with lost time. Of these, seven claims for respiratory disease were allowed, while fourteen were denied. Two claims for contact dermatitis were also allowed. The remaining 105 claims were medical surveillance claims with either no symptoms or no lost time.

On June 3, 1992, the Board received the Interim IDSP Report to the Workers' Compensation Board on Aluminum, May 1992 (IDSP Report of Findings No. 9). The Board published the report in *The Ontario Gazette* on July 4, 1992 with a comment period ending October 2, 1992. At the same time, the Board provided the report to scientific experts for comments and received four submissions.

The findings and recommendations put forth by the IDSP are presented below in bold type and are followed by the Board's comments.

FINDING 1: The evidence currently available is inadequate to allow the Panel to conclude that occupational aluminum exposure causes neurological health effects.

The earlier IDSP Progress Report on Health Effects of Aluminum in the Workplace concluded from its comprehensive literature review that occupational exposure to aluminum is associated with pulmonary fibrosis in the pyrotechnics industry during the 1940s and 1950s from exposure to aluminum dust coated with mineral oil and nonspecific pulmonary responses to extremely heavy generalized dust (including aluminum dust) exposure.

In the Interim Report, the Panel reviewed the scientific evidence to date and identified the distinction between aluminum exposure levels and aluminum absorbed into and accumulated in the body tissues. The Panel also stressed the role of the blood brain barrier (the bodily systems that prevent aluminum from accumulating in the brain) in healthy people. The report confirmed that the highest accumulations occur in the lungs and that the accumulation in the lungs and brain increase with age.

¹Rosenior, J., A Brief Review of the Toxicology of Aluminum, Ontario WCB, June 1989.

The Panel also reviewed the evidence on aluminum and encephalopathy. The usually progressive and fatal condition "Dialysis Encephalopathy Syndrome" (DES or dialysis dementia) resulted from the use of renal dialysis fluid which contained aluminum. Features of DES consist mainly of impaired motor and/or neural activity leading to impaired coordination such as tremor, involuntary muscle contraction, speech difficulties and loss of mental function. The Panel found that despite receiving very high doses of aluminum, many dialysis patients do not develop the condition. In addition, the DES affected brain tissue does not resemble the brain tissue of Alzheimer's Disease patients.

The IDSP noted one study in which researchers found at least seventeen times the normal aluminum level in the autopsied brain and lung tissue of an aluminum powder factory worker with encephalopathy. With no other evident causative agent, the study authors concluded that, possibly, the condition was due to aluminum. The IDSP pointed out that, although there are three million aluminum workers in the United States, no evidence of a link between encephalopathy and aluminum has been observed. The Panel concluded that, at this time, the evidence does not support the hypothesis that occupational aluminum exposure can cause a toxic encephalopathy.

Alzheimer's Disease has been suggested to result from aluminum exposure. The disease is dissimilar to DES, in that it results in memory loss, disorientation and mood disturbances and eventually, dementia. These symptoms are often regarded as "accelerated aging." Brain tissue of Alzheimer's Disease patients exhibits different characteristics than that of DES patients. Many other risk factors such as aging, head injury, Down's Syndrome and family history have been identified for Alzheimer's Disease.

The Panel's consultant neurologist, Dr. J. Turnbull, explained that the reported symptoms of aircraft workers (e. g., dizziness, headaches, nausea and loss of memory) are not the symptoms of Alzheimer's Disease, but most closely resemble the neurological effects related to chronic solvent exposure. Ministry of Labour environmental tests in one aircraft company showed levels of one neurotoxic solvent to be more than fifteen times the provincial guideline. The Panel concluded that there was little evidence in either the medical literature or in occupational surveys to support a link between occupational aluminum exposure and Alzheimer's Disease.

Neurological deficits are impairments of the nervous system including the brain and the spinal cord. Cognitive deficits are those untoward changes in the mind's ability to perceive, think or remember. The Panel noted that dialysis patients without DES exhibited cognitive deficits, although the cause has not been established. The Panel reviewed the "Northern Ontario Miners' Study" which evaluated the effects of exposure to an aluminum powder called McIntyre Powder. This powder was used in gold mines between 1944 and 1979 as an anti-silicosis agent. A preliminary study of exposed workers suggested the possibility of cognitive effect from inhalation of the powder. At the time the IDSP published this report, the results of the first phase of a more detailed study of this group funded by the Panel were being considered.

Other occupational studies were reviewed by the Panel. Yugoslavian foundry workers exhibited changes in mental abilities deemed by the study authors to be the "consequence of the long lasting toxic effects of aluminum." A Swedish study of welders concluded that long term exposure to metal welding fumes (not specifically aluminum) was the cause of the neuropsychiatric symptoms observed. Three American potroom workers had exhibited some cognitive defects, though none were "typical" aluminum related conditions. The authors felt that the mixed occupational exposures in the potrooms were responsible, but that aluminum was not specifically responsible.

The Panel reported that the Ontario Workers' Health Clinic had provided undocumented anecdotal evidence that at least 10% of the 375 McDonnell Douglas workers tested suffered from "noticeable memory loss." McDonnell Douglas, on the other hand, made a submission to the Panel which indicated that aluminum exposure at the plant was not a health hazard and that blood aluminum levels are normally raised by non-occupational exposure (e.g., diet and use of antacids).

All but one submission received by the Board agreed with IDSP Finding 1. Dr. Rockette, Dr. Muir and Dr. Wisniewski and his associates praised

the balanced perspective the Panel took on the literature. Dr. Muir felt the approach taken by the IDSP was appropriate and that the Panel's findings were in keeping with current medical evidence. Dr. Rockette found the Panel's interpretation reasonable, and offered additional comments on the difficulties faced by researchers in the field of aluminum epidemiology. Dr. Wisniewski and his colleagues also felt that the IDSP had done a commendable job and especially praised the Panel's approach to the dissimilarities between occupational aluminum exposure and Alzheimer's Disease. They also provided observations regarding risk factors for aluminum conditions and constructive comments regarding the proposed second stage of the Ontario Miners' Study.

The submission from Dr. D. McLachlan indicated his support for a causal relationship between aluminum and various cognitive and neurological effects. Dr. McLachlan provided the Board with several articles related to aluminum exposure. The Panel considered many of these articles in its review, while some were not included.

The Board has carefully reviewed the papers provided by Dr. McLachlan. While the evidence in these papers offers some indication of an association between aluminum and neurotoxic effects, the studies have methodological flaws that limit their usefulness in concluding causality. Some are descriptive in nature with no control group; some were clinical reports of aluminum workers with cognitive deficits; and some have used unvalidated techniques for measuring cognitive deficits. As such, they add little to the understanding of aluminum health effects beyond what was reviewed by the IDSP.

The Board notes that the number of studies on the relationship between occupational aluminum exposure and the development of cognitive impairment is increasing. The studies consist of case reports, surveys, cross-sectional comparisons, case control studies and some historical cohort studies. Many of these studies have provided findings that suggest a relationship. However, the case reports and surveys do not rule out the operation of chance or error. None of the cross-sectional or case-control studies rule out methodological bias or the confounding effects of other causes. The historical cohort studies do not identify a causal agent and, because the workers included in each study were exposed to both aluminum and solvents, the evidence for implicating aluminum alone is weak. In addition, although the endpoints chosen in some studies were mortality, some historical cohort studies show no association between aluminum exposure and adverse neurological outcomes.

Based on the Board review of the IDSP report, comments from scientific experts and the continued review of the literature by the Board staff, the Board agrees with IDSP Finding 1 and feels that the evidence currently available is inadequate to conclude that occupational aluminum exposure causes adverse neurological health effects.

The Northern Ontario Miners' Study², noted in the IDSP Progress Report and partially completed by the time the Interim Report was submitted, observed that miners exposed to aluminum dust known as McIntyre powder had impaired cognitive levels when compared to their non-exposed colleagues. In a commentary on her own work, one of the authors, Dr. S. Rifat identified several possible influences on the results of this study. These include factors such as another exposure associated with gold or hard rock mining, the response bias caused by the exposed group already perceiving aluminum to be causally related to Alzheimer's Disease, education, language ability and immigrant status.³

FINDING 2: Neither blood nor urine aluminum levels are good indicators for predicting occupational health risks, nor for estimating body burden of aluminum. The other methods currently available are far too invasive to be considered for occupational monitoring. There is currently no evidence that body burden of aluminum reflects danger to health.

²Rifat, S.L., Eastwood, M.R., Crapper McLachlan, D.R., Corey, P.N., Effect of exposure of miners to aluminum powder, in *The Lancet*, Vol. 33:p. 1162-1165, 1990

³Rifat, S.L., Cognitive Deficit After Exposure to McIntyre Powder: Exposure Effect or Artifact, in *Proceedings from Second International Conference on Aluminum and Health*, Tampa, February 2-6, 1992

One important question for the Board is whether occupational aluminum exposure causes adverse health effects such as neurological impairment. If it does, then the Board must determine whether the amount of aluminum in the blood or urine is an indicator of adverse health effects that already have occurred or which may occur in the future. Knowing the level of aluminum in the urine or blood cannot determine this, for two reasons. First, a causal relationship between aluminum exposure and adverse health effects (such as neurological impairment) has not yet been established. Second, scientists do not know how to interpret these levels.

According to the Panel, it is likely that "high" levels of aluminum in the blood or urine mean that high levels of aluminum have been taken into the body and the body is working adequately to clear aluminum from the body. On the other hand, urine or blood tests of aluminum do not tell whether and how much aluminum is still left in the body. If aluminum has adverse health effects, it will be the aluminum left in the body (the body burden) that is causing the problem. Alternatively, if the level of aluminum in the blood or urine is low, it is possible that aluminum is being retained by the body. If so, there may be more danger in having a low aluminum level in the urine or blood than a high one.

High levels of aluminum in the blood or urine also do not necessarily mean that there is high occupational exposure to aluminum. Aluminum can be ingested in a variety of ways, such as in the use of antacids, enteric coated drugs, tea, and some processed foods.

The IDSP report states that there is no known correlation between urinary levels of aluminum and body burden. Similarly, scientists have not yet correlated the aluminum levels in the blood with body burden. Moreover, it has not been established that aluminum causes adverse health effects, and if so, what level in the blood or urine is potentially hazardous. These IDSP findings were confirmed by the submissions provided to the Board by outside experts and by the Board toxicologist's reading of the scientific literature on this subject.

Since the amount of aluminum found in the blood or urine does not correlate with body burden, the IDSP investigated other biological markers (e.g., methods for assessing aluminum in the bone and brain, and the use of chelating drugs). The Panel concluded, and the Board concurs, that measurement of aluminum in the bone would be an unacceptable monitoring procedure because it is too invasive. Measurement of aluminum in the brain can only be done at autopsy, and would, therefore, not be useful to identify potential adverse health effects. Moreover, since a causal link has not yet been established, the presence of aluminum in the brain cannot be interpreted.

Chelation therapy is a means of releasing the accumulated aluminum in the body to remove it. Such therapy, however, has serious side effects. The Panel does not recommend its use on apparently healthy individuals who report no symptoms, and the Board agrees that its use for making decisions on workers' compensation would be inappropriate.

FINDING 3: The available evidence is inadequate to allow the Panel to identify conditions under which a worker should be removed from occupational exposure to aluminum.

In his letter to the IDSP on December 16, 1988, Dr. Robert Elgie asked the IDSP "Under what conditions should a worker be removed from occupational exposure to aluminum?" The IDSP responded in Finding 3 that the available evidence is inadequate to allow the Panel to identify conditions under which a worker should be removed from occupational exposure to aluminum. The Board concurs with this finding.

Section 134 (1) of the Workers' Compensation Act provides for compensation of a worker who has an industrial disease. According to this section,

Where a worker suffers from an industrial disease and is thereby impaired or his or her death is caused by an industrial disease and the disease is due to the nature of any employment in which the worker was engaged, whether under one or more employments, the worker is or his or her dependants are entitled to compensation as if the disease was a personal injury by accident and the impair-

ment was the happening of the accident, subject to the modifications hereinafter mentioned or

To receive compensation under s.134 (1), three criteria have to be met: (1) the worker has to have an industrial disease; (2) the worker has to be impaired; and (3) the worker's disease has to be due to the nature of the impairment. If these three criteria are met, then the worker is entitled to compensation as if the disease were an injury by accident.

Section 1 (1) of the Act, which defines industrial disease, provides information on how to meet the first test. Four definitions of industrial disease are provided. The third definition states that "industrial disease includes,

a medical condition that in the opinion of the Board requires a worker to be removed either temporarily or permanently from exposure to a substance because the condition may be a precursor to an industrial disease."

As noted by the Panel, this definition of industrial disease allows the Board to be proactive and to protect the worker's health before an industrial disease occurs. If it is known that a medical condition (e.g., evidence of exposure to a particular substance that shows up in the blood or urine) may lead to an industrial disease, then, in order to prevent the development of the industrial disease, the worker should be removed from exposure. In aluminum exposure, however, it is not known that exposure to aluminum leads to a particular industrial disease. In addition, the level of aluminum in the blood and urine cannot be interpreted.

To date, as stated in IDSP Finding 1, the evidence currently available is inadequate to conclude that occupational aluminum exposure causes neurological health effects. The evidence also may be too preliminary to conclude that aluminum exposure causes other adverse health effects such as cancer. As shown by the Panel, the aluminum in the blood or urine does not constitute a precursor to an industrial disease because a specific aluminum-related industrial disease has not been identified. Moreover, the evidence is inadequate for interpreting the meaning of the presence of aluminum in either blood or urine. Therefore, biological monitoring of workers for blood or urine levels does not seem warranted for the purposes of workers' compensation.

Biological monitoring of healthy individuals' bones is also not justifiable. Moreover, monitoring the levels of aluminum in the brain after death would serve no useful purpose from a compensation perspective, since aluminum exposure occurs from non occupational sources. Finally, the use of chelating drugs for biological monitoring is both premature and possibly unethical. The Board agrees with the IDSP that further research is required to be able to interpret blood and urine levels of aluminum and to find more acceptable methods of biological monitoring of body burden of aluminum. However, the most important question to answer first, from the Board's perspective, is whether there is a causal relationship between occupational aluminum exposure and adverse health effects.

FINDING 4: Since the available evidence is inadequate to identify adverse health effects from occupational aluminum exposure, the Panel is not able to recommend criteria for the adjudication of claims at this time.

The Board agrees that the development of adjudication guidelines at this time would not be possible. In addition, the Board concurs with the Panel that the scientific and other literature must continue to be monitored for any new findings.

Because of the preliminary nature of the evidence suggesting that aluminum causes some health effects, the Panel encouraged further research. It specifically recommended that a study of health effects among aircraft workers be conducted, if there is sufficient funding to do so. The Panel has approved in principle the second phase of the Northern Ontario Miners' Study. The Board agrees that an investigation into aircraft workers may be useful and that further research to establish a causal relationship between neurological health problems and occupational aluminum exposure is welcome.

The Panel has planned to continue monitoring the literature and any evidence provided by the Union or management on health effects in

aircraft workers. It will also continue to monitor research into the application of neutron activation analysis for biological monitoring. When further scientific or medical evidence is available, the Panel will promptly reconsider its findings. The Board looks forward to any insights the Panel can provide on this issue.

ONTARIO REGULATION 535/93 made under the ENVIRONMENTAL ASSESSMENT ACT

Approved: September 1, 1993
Filed: September 8, 1993

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-57/2

Having received a request from the Minister of Natural Resources that an undertaking related to efforts to improve the socio-economic condition of the Lac La Croix First Nation, namely,

The activities of,

- (a) extending motorized boat and canoe access by the Lac La Croix First Nation to Cirrus Lake, Jean Lake and Conk Lake, and
- (b) extending aircraft access to Cirrus Lake by the Lac La Croix First Nation, and providing an aircraft landing location, boat and canoe cache, dock and associated activities and facilities on Cirrus Lake for that purpose,

within Quetico Provincial Park,

by the Ministry of Natural Resources be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur,

- A. The Lac La Croix First Nation will continue to be damaged as a result of economic hardship caused by the delay in changing current restrictions on the nature and extent of the Lac La Croix Guides Association guiding activities in Quetico Provincial Park.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Restrictions on guiding activities in Quetico Provincial Park limit economic opportunities in the area of the Lac La Croix First Nation reserve.
- B. The Lac La Croix First Nation's reserve is isolated and the First Nation has little opportunity for alternative employment.
- C. Timely expansion of guiding opportunities may assist in alleviating the severe economic hardship of the Lac La Croix First Nation pending completion of amendments to the Quetico Provincial Park Management Plan.
- D. Native guiding in the Quetico Park area is an existing activity of the Lac La Croix First Nation.

E. The guiding activities of the Lac La Croix First Nation will not cause undue harm to the environment.

F. The Lac La Croix First Nation has requested of the Minister of Natural Resources that, in addition to the undertaking that is the subject of this exemption,

- (a) mechanized boat and canoe access to additional waters in Quetico Provincial Park by the Lac La Croix First Nation be allowed for the purposes of guiding including,
 - (i) opening access to additional lakes and the Maligne River;
 - (ii) granting permission to operate canoes or motor boats with a maximum of 10 horsepower motors on these additional park waters, and to cache boats;
 - (iii) granting permission to operate and land aircraft in additional park waters and to build docks for the purposes of landing aircraft;
- (b) the Quetico Provincial Park Boundary be expanded to encompass the Canadian waters of Lac La Croix;
- (c) exclusive rights to the members of the Lac La Croix First Nation be granted to operate boats or canoes with unlimited horsepower on Lac La Croix for guiding and transportation,

and the Minister of Natural Resources has caused a review of these additional measures and proposed amendments to the Quetico Provincial Park Management Plan to improve the socio-economic condition of the Lac La Croix First Nation through a process of public consultation in accordance with the Ontario Provincial Park Management Planning Guidelines, and MNR's existing exemption order for the provincial parks program, MNR-59, but the review process is not yet complete and it is appropriate to provide for the additional activity referred to in clause (b) of the description of the undertaking, pending interim or final amendments to the Management Plan being completed.

- G. The Ontario Native Affairs Secretariat and the Ministry of Natural Resources will undertake efforts to provide further employment opportunities for the Lac La Croix First Nation through encouraging diversification of employment opportunities associated with Quetico Provincial Park, within the framework of park objectives, including encouraging First Nation owned tourism related ventures and alternative guiding operations such as canoe-trip outfitting as well as continuing to consider Lac La Croix First Nation members for the operation of the park.

This exemption order is subject to the following terms and conditions:

- 1. This exemption does not apply to any activity which is likely to have a harmful effect on the habitat of a species designated under the *Endangered Species Act*.
- 2. This exemption expires the earlier of,

- (a) the approval of amendments to the Quetico Provincial Park Management Plan relating to the activities referred to in clauses (a) and (b) of the description of the undertaking; and

- (b) one year from the date of the approval of this order,

or on such later date as the Minister of Environment and Energy may specify in a letter to the Minister of Natural Resources.

3. This order revokes and replaces exemption order MNR-57 which is filed as Ontario Regulation 279/91. O. Reg. 535/93.

(3) An obligation on a discharger to do a thing under this Regulation

is discharged if another person has done it on the discharger's behalf. O. Reg. 537/93, s. 1.

PURPOSE

2. The purpose of this Regulation is to monitor and control the quality of effluent discharged from the plants listed in Schedule 1. O. Reg. 537/93, s. 2.

APPLICATION

3.—(1) This Regulation applies only with respect to the plants listed in Schedule 1.

(2) This Regulation does not apply with respect to the discharge of effluent to a municipal sewer. O. Reg. 537/93, s. 3.

OBLIGATIONS UNDER APPROVALS, ORDERS, ETC.

4. Nothing in this Regulation shall be interpreted to limit or reduce a discharger's obligations under an approval, order, direction or other instrument issued under any Act. O. Reg. 537/93, s. 4.

NON-APPLICATION OF GENERAL EFFLUENT MONITORING REGULATION

5. This Regulation is not a Sectoral Effluent Monitoring Regulation within the meaning of Ontario Regulation 695/88. O. Reg. 537/93, s. 5.

BY-PASSES

6. Beginning on January 1, 1996, a discharger shall not permit process effluent to be discharged from the discharger's plant unless the process effluent flows past a sampling point established on a process effluent stream in accordance with this Regulation before being discharged. O. Reg. 537/93, s. 6.

SAMPLING AND ANALYTICAL PROCEDURES

7.—(1) Each discharger shall carry out the establishment of sampling point obligations of this Regulation and the sampling and analysis obligations of this Regulation, including quality control sampling and analysis obligations, in accordance with the procedures described in the Ministry of Environment and Energy publication entitled "Protocol for the Sampling and Analysis of Industrial/Municipal Wastewater" dated July, 1993.

(2) Each discharger shall maintain the sampling equipment used at the discharger's plant for sampling required by this Regulation in a way that ensures that the samples collected at the plant under this Regulation accurately reflect the level of discharge of each limited parameter, assessment parameter and specific parameter from the plant. O. Reg. 537/93, s. 7.

PART II SAMPLING POINTS

ESTABLISHMENT AND ELIMINATION OF SAMPLING POINTS

8.—(1) Each discharger shall, by December 9, 1993, establish a sampling point on each process effluent and cooling water effluent stream at the discharger's plant, as necessary so that the plant loadings calculated under sections 12 and 13 for each limited parameter and assessment parameter and the concentrations determined for each specific parameter accurately reflect the level of discharge of each such parameter from the plant.

(2) If circumstances change so that a new sampling point is necessary at a discharger's plant in order to permit the calculation of plant loadings under sections 12 and 13 for each limited parameter and assessment parameter and the determination of concentrations for each specific parameter that accurately reflect the level of discharge of each such parameter from the plant, the discharger shall, within thirty days of the change, establish the new sampling point.

(3) A discharger may eliminate a sampling point established under subsection (1) or (2) if the sampling point is no longer necessary to permit the calculation of plant loadings under sections 12 and 13 for each limited parameter and assessment parameter and the determination of concentrations for each specific parameter that accurately reflect the level of discharge of each such parameter from the plant.

(4) For the purposes of this section, a plant loading for a parameter or a concentration for a parameter that is based on analytical results that are significantly affected by dilution or masking due to the merging of streams upstream of a sampling point at a plant is not a loading or a concentration that accurately reflects the level of discharge of the parameter from the plant.

(5) In determining what is necessary to meet a discharger's obligations to establish sampling points under this section, the discharger shall consider both which streams should have sampling points and where on a stream a sampling point should be located. O. Reg. 537/93, s. 8.

REPORTS ON SAMPLING POINTS

9.—(1) By December 20, 1993, each discharger shall submit to the Director a list and plot plan showing the sampling points established under this Regulation at the discharger's plant as of December 9, 1993.

(2) Within thirty days after establishing a sampling point under this Regulation that is not shown on a list and plot plan submitted under this section, the discharger shall give the Director a written notice describing the location of the sampling point, together with a revised list and plot plan showing the sampling point.

(3) Within thirty days after eliminating a sampling point under this Regulation that is shown on a list and plot plan submitted under this section, the discharger shall give the Director a written notice describing where the sampling point used to be, together with a revised list and plot plan without the sampling point. O. Reg. 537/93, s. 9.

USE OF SAMPLING POINTS ESTABLISHED UNDER THIS PART

10. Subject to section 21, each discharger shall use the sampling points established under this Part for all sampling required by this Regulation. O. Reg. 537/93, s. 10.

PART III CALCULATION OF LOADINGS

CALCULATION OF LOADINGS—GENERAL

11.—(1) For the purposes of performing a calculation under sections 12 and 13, a discharger shall use the actual analytical result obtained by the laboratory.

(2) Despite subsection (1), where the actual analytical result is less than one-tenth of the analytical method detection limit set out in the Ministry of Environment and Energy publication entitled "Protocol for the Sampling and Analysis of Industrial/Municipal Wastewater" dated July, 1993, the discharger shall use the value zero for the purpose of performing a calculation under sections 12 and 13.

(3) Each discharger shall ensure that each calculation of a process effluent loading required by section 12 is performed as soon as reasonably possible after the analytical result on which the calculation is based becomes available to the discharger.

(4) Each discharger shall ensure that each calculation of a cooling water effluent loading required by section 13 is performed in time to comply with subsection 33 (4). O. Reg. 537/93, s. 11.

CALCULATION OF LOADINGS—PROCESS EFFLUENT

12.—(1) Each discharger shall calculate, in kilograms, a daily process effluent stream loading for each limited parameter in each process effluent monitoring stream of the discharger for each day on which a sample is collected under this Regulation from the stream for analysis for the parameter.

(2) When calculating a daily stream loading under subsection (1), the discharger shall multiply, with the necessary adjustment of units to yield a result in kilograms, the analytical result obtained from the sample for the parameter by the daily volume of effluent, as determined under section 26, for the stream for the day.

(3) Each discharger shall calculate, in kilograms, a daily process effluent plant loading for each limited parameter for each day for which the discharger is required to calculate a daily process effluent stream loading for the parameter under subsection (1).

(4) For the purposes of subsection (3), a daily process effluent plant loading for a parameter for a day is the sum, in kilograms, of the daily process effluent stream loadings for the parameter calculated under subsection (1) for the day.

(5) Where a discharger calculates only one daily process effluent stream loading for a parameter for a day under subsection (1), the daily process effluent plant loading for the parameter for the day for the purposes of subsection (3) is the single daily process effluent stream loading for the parameter for the day.

(6) Each discharger shall calculate, in kilograms, a monthly average process effluent plant loading for each limited parameter for each month in which a sample is collected under this Regulation more than once from a process effluent monitoring stream at the discharger's plant for analysis for the parameter.

(7) For the purposes of subsection (6), a monthly average process effluent plant loading for a parameter for a month is the arithmetic mean of the daily process effluent plant loadings for the parameter calculated under subsection (3) for the month. O. Reg. 537/93, s. 12.

CALCULATION OF LOADINGS—COOLING WATER

13.—(1) Each discharger shall calculate, in kilograms, a daily cooling water effluent stream loading for each assessment parameter in each cooling water effluent monitoring stream of the discharger for each day on which a sample is collected under this Regulation from the stream for analysis for the parameter.

(2) When calculating a daily stream loading under subsection (1), the discharger shall multiply, with the necessary adjustment of units to yield a result in kilograms, the analytical result obtained from the sample for the parameter by the daily volume of effluent, as determined under section 26, for the stream for the day.

(3) Each discharger shall calculate, in kilograms, a daily cooling water effluent plant loading for each assessment parameter for each day for which the discharger is required to calculate a daily cooling water effluent stream loading for the parameter under subsection (1).

(4) For the purposes of subsection (3), a daily cooling water effluent plant loading for a parameter for a day is the sum, in kilograms, of the daily cooling water effluent stream loadings for the parameter calculated under subsection (1) for the day.

(5) Where a discharger calculates only one daily cooling water effluent stream loading for a parameter for a day under subsection (1), the daily cooling water effluent plant loading for the parameter for the day for the purposes of subsection (3) is the single daily cooling water effluent stream loading for the parameter for the day.

(6) Each discharger shall calculate, in kilograms, a monthly average cooling water effluent plant loading for each assessment parameter for each month in which a sample is collected under this Regulation more than once from a cooling water effluent monitoring stream at the discharger's plant for analysis for the parameter.

(7) For the purposes of subsection (6), a monthly average cooling water effluent plant loading for a parameter for a month is the arithmetic mean of the daily cooling water effluent plant loadings for the parameter calculated under subsection (3) for the month. O. Reg. 537/93, s. 13.

PART IV PARAMETER AND LETHALITY LIMITS

PARAMETER LIMITS

14.—(1) Each discharger shall ensure that each daily process effluent plant loading calculated for a parameter under section 12 in connection with the discharger's plant does not exceed the daily plant loading limit specified for the parameter and the plant in Column 3 of Schedule 2.

(2) Each discharger shall ensure that each monthly average process effluent plant loading calculated for a parameter under section 12 in connection with the discharger's plant does not exceed the monthly average plant loading limit specified for the parameter and the plant in Column 4 of Schedule 2.

(3) Each discharger shall control the quality of each process effluent monitoring stream at the discharger's plant to ensure that the concentration of 2,3,7,8-tetrachlorodibenzo-para-dioxin and the concentration of 2,3,7,8-tetrachlorodibenzofuran are both non-measurable in any sample collected at a process effluent sampling point at the plant.

(4) For the purposes of subsection (3), the concentration of 2,3,7,8-tetrachlorodibenzo-para-dioxin in a sample is non-measurable if analysis of the sample shows a concentration of 2,3,7,8-tetrachlorodibenzo-para-dioxin of less than 20 picograms per litre and the concentration of 2,3,7,8-tetrachlorodibenzofuran in a sample is non-measurable if analysis of the sample shows a concentration of 2,3,7,8-tetrachlorodibenzofuran of less than 50 picograms per litre.

(5) Each discharger shall control the quality of each process effluent monitoring stream at the discharger's plant to ensure that the total toxic equivalent concentration of 2,3,7,8 substituted dioxin and furan congeners in any sample collected at a process effluent sampling point at the plant, calculated in accordance with the methods described in the Ministry of Environment and Energy publication entitled "Protocol for the Sampling and Analysis of Industrial/Municipal Wastewater" dated July, 1993, does not exceed 60 picograms per litre.

(6) Subject to subsection (7), each discharger shall control the quality of each process effluent monitoring stream at the discharger's plant to ensure that the pH value of any sample collected at a process effluent sampling point at the plant is within the range of 6.0 to 9.5.

(7) Throughout any day on which a discharger has used an alternate sampling point on a process effluent monitoring stream for sampling required by section 21, as permitted by subsections 21 (7) and (8), the discharger,

- (a) shall control the quality of the stream to ensure that the pH value of any sample collected at the alternate sampling point on the stream is within the range of 6.0 to 9.5; and
- (b) need not comply with subsection (6) with respect to the stream. O. Reg. 537/93, s. 14.

LETHALITY LIMITS

15. Each discharger shall control the quality of each process effluent monitoring stream and each cooling water effluent monitoring stream at the discharger's plant to ensure that each rainbow trout acute lethality test and each *Daphnia magna* acute lethality test performed on any grab sample collected at a process effluent sampling point or cooling water effluent sampling point at the plant results in mortality for no more than 50 per cent of the test organisms in 100 per cent effluent. O. Reg. 537/93, s. 15.

PART V MONITORING

MONITORING—GENERAL

16.—(1) Despite sections 17 to 25, a discharger need not collect samples from any stream at the discharger's plant on a day on which there is no process effluent that is being discharged from the plant.

(2) Where a discharger is required by this Regulation to pick up a set of samples and analyze it for certain parameters, the discharger shall pick up a set of samples sufficient to allow all the analyses to be performed.

(3) A discharger shall use all reasonable efforts to ensure that all analyses required by this Regulation are completed as soon as reasonably possible and that the results of those analyses are made available to the discharger as soon as reasonably possible.

(4) Subject to subsection (5), each discharger shall pick up all sets of samples required to be picked up at the discharger's plant under sections 17, 18 and 19 between the hours of 7 a.m. and 10 a.m.

(5) If the Director is satisfied, on the basis of written submissions from a discharger, that the circumstances at the discharger's plant are such that it would be impractical to pick up a set of samples from each sampling point established at the plant under this Regulation within the time period specified in subsection (4), the Director may give the discharger a written notice in respect of the plant, varying the time period specified in subsection (4).

(6) Subject to subsections (7) and (8), where a discharger is required by section 17, 18 or 19 to pick up a set of samples, the discharger shall pick up a set collected over the twenty-four-hour period immediately preceding the pick-up.

(7) The twenty-four-hour period referred to in subsection (6) may be shortened or enlarged by up to three hours to permit a discharger to take advantage of the three-hour range specified in subsection (4) or of a different three-hour period specified in a notice under subsection (5).

(8) Where a notice has been given under subsection (5), respect of a plant specifying a time period longer than three hours, the twenty-four-hour period referred to in subsection (6) may be shortened or enlarged by up to that longer amount of time to permit the discharger to take advantage of the time period specified in the notice.

(9) If the circumstances at a plant change so that the Director is satisfied that the circumstances described in subsection (5) no longer apply at the plant, the Director may revoke a notice given in respect of a plant under subsection (5) by giving a notice of revocation in writing to a discharger for the plant.  - soit de 60 cents la livre.

(4) L'article 14 de l'annexe du Règlement est abrogé et remplacé par ce qui suit :

“A” is the surcharge or discount rate determined in accordance with subsections (4) and (5),

“B” is the number of years the insured person has been enrolled in the plan,

“C” is the insured person’s loss to coverage ratio determined in accordance with subsection (6), and

“D” is the plan’s loss to coverage ratio determined in accordance with subsection (7).

(2) The Commission shall determine the premium payable in the crop year by multiplying the total number of insurable hives by the premium rate as determined under subsection (3).

(3) The Commission shall determine the premium rate as follows:

1. If the established price is 50 cents per pound, by multiplying $(1 + A)$ by \$1.60 per hive.
2. If the established price is 60 cents per pound, by multiplying $(1 + A)$ by \$2 per hive.

(4) The Commission shall determine “A” by the following formula:

$$A = \frac{B \left(\frac{C}{D} - 1 \right)}{20}$$

(5) Despite subsection (4), “A” shall be introduced as follows:

1. For an insured person who has participated in the plan for one year, “A” shall not be more than 0.05 or less than minus 0.05.
2. For an insured person who has participated in the plan for two years, “A” shall not be more than 0.10 or less than minus 0.10.

(7) The Commission shall determine the plan’s loss to coverage ratio by dividing the total dollar value of the payments made by the Commission in respect of all claims made by insured persons under the plan for the number of years the plan has been in effect, by the total dollar value of coverage extended by the plan for the number of years it has been in effect.

14 (1) Les variables suivantes s’appliquent aux formules utilisées dans le présent article.

«A» s’entend de la surcharge ou du taux d’escompte déterminés conformément aux paragraphes (4) et (5).

«C» s’entend de la proportion que représente la perte subie par l’assuré par rapport à la garantie, déterminée conformément au paragraphe (6).

«D» s’entend de la proportion que représente la perte subie par le régime par rapport à la garantie, déterminée conformément au paragraphe (7).

(2) La Commission détermine la prime payable au cours de la campagne agricole, en multipliant le nombre total de ruches assurables par le taux de la prime déterminé aux termes du paragraphe (3).

(3) La Commission détermine le taux de la prime de la façon suivante :

1. En multipliant $(1 + A)$ par 1,60 \$ la ruche, si le prix fixé correspond à 50 cents la livre.
2. En multipliant $(1 + A)$ par 2 \$ la ruche, si le prix fixé correspond à 60 cents la livre.

(4) La Commission détermine la valeur de la variable «A» au moyen de la formule suivante :

$$A = \frac{B \left(\frac{C}{D} - 1 \right)}{20}$$

(5) Malgré le paragraphe (4), lorsque l’assuré participe au régime depuis moins de quatre années, la variable «A» reçoit la valeur suivante :

1. Lorsque l’assuré participe au régime depuis une année, la variable «A» ne doit pas recevoir une valeur supérieure à 0,05 ni inférieure à moins 0,05.
2. Lorsque l’assuré participe au régime depuis deux années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,10.
3. Lorsque l’assuré participe au régime depuis trois années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,15.
4. Lorsque l’assuré participe au régime depuis au moins quatre années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,20.

(6) La Commission détermine la proportion que représente la perte subie par l’assuré par rapport à la garantie en divisant la valeur totale en dollars des versements qu’elle a effectués à l’égard de toutes les demandes d’indemnité présentées par les assurés dans le cadre du régime au cours des années où le régime était en vigueur, par la valeur totale en dollars de la garantie de l’assuré au cours de ces années.

(7) La Commission détermine la proportion que représente la perte subie par le régime par rapport à la garantie en divisant la valeur totale en dollars des versements qu’elle a effectués à l’égard de toutes les demandes d’indemnité présentées par les assurés dans le cadre du régime au cours des années où le régime était en vigueur, par la valeur totale en dollars de la garantie supplémentaire prévue par le régime au cours de ces années.

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7 (4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within

thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10 (1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

Rent Control Act, 1992

NOTICE OF WAIVER

The law limits how much money the Rent Officer can order be repaid to a tenant. The limit is the Small Claims Court limit or \$5,000, whichever is higher. If your application involves repayment of more than this amount, you have two choices:

1. You can abandon the amount which is more than the limit. In this case, the Rent Officer can only order a repayment up to the limit shown above.
2. If you do not want to abandon any part of the money that may be owed to you, the Rent Officer may determine the maximum rent, depending on the type of application, but will not order any repayment of the amounts owing. You will have to apply to a court in order to get back any amounts of money owing.

If you choose option 1, complete this form and return it to the Rent Control Office where you filed the application.
If you choose option 2, do not complete this form.

Loi de 1992 sur le contrôle des loyers

AVIS DE RENONCIATION

La loi limite le montant dont l'agent des loyers peut ordonner le remboursement à un locataire. Cette limite correspond à la limite de la Cour des petites créances ou à 5 000 \$, si ce montant est plus élevé. Si votre requête met en cause le remboursement d'un montant plus élevé, vous avez deux possibilités :

1. Vous pouvez renoncer à la partie du montant qui dépasse la limite. En pareil cas, l'agent des loyers ne peut ordonner qu'un remboursement ne dépassant pas la limite indiquée ci-dessus.
2. Si vous ne voulez renoncer à aucune partie du montant qui peut vous être dû, l'agent des loyers peut déterminer le loyer maximal, selon le genre de requête, mais il n'ordonnera le remboursement d'aucun montant qui est dû. Vous devrez alors présenter une requête à un tribunal afin d'obtenir le remboursement des montants qui sont dus.

Si vous optez pour la première possibilité, remplissez cette formule et renvoyez-la au Bureau de contrôle des loyers où vous avez déposé votre requête. Si vous optez pour la deuxième possibilité, ne remplissez pas cette formule.

En signant cette déclaration, je renonce au montant que l'agent des loyers détermine comme dépassant la limite à l'égard de cette requête et je reconnais que je ne pourrai faire aucune autre réclamation à l'égard de ce montant.

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7 (4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10 (1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

6. It would be inequitable in all the circumstances to pay the claim because there is an association between the producer and the applicant and the applicant's conduct, or if the applicant is a corporation, the conduct of an officer or director of the applicant or that of a person having power to direct the applicant's management, caused the failure to pay. O. Reg. 560/93, s. 19.

20. On a claim in respect of a dealer, the Board shall pay out of the Fund 90 per cent of the portion of the claim that it recognizes as valid. O. Reg. 560/93, s. 20.

21.—(1) The following rules govern payment out of the Fund of a claim made in respect of a producer who is not a feeder cattle finance co-operative:

1. No payment is made if the portion of a claim that the Board recognizes as valid is \$5,000 or less.

1. No payment is made if the portion of a claim that the Board recognizes as valid is \$5,000 or less.
2. The amount that the Board shall pay is the lesser of 70 per cent of the portion of a claim that it recognizes as valid and \$75,000.
3. Once an applicant has received payment in respect of a feeder cattle finance co-operative on behalf of a particular member, the applicant is ineligible to receive payment again in respect of that member of the co-operative until either the member or the co-operative has reimbursed the Fund the full amount paid on the claim.

(3) Paragraph 3 of subsection (2) does not prevent an applicant from receiving payment from the Fund in respect of another member of the feeder cattle finance co-operative.

(4) For the purposes of this section, a "claim",

- (a) in respect of a producer who is not a feeder cattle finance co-operative, means an application for payment in respect of all sales of livestock made to the producer at a particular location on a particular day;
- (b) in respect of a feeder cattle finance co-operative, means an application for payment in respect of all sales of livestock made to a particular member buying under the authority of the co-operative at a particular location on a particular day. O. Reg. 560/93, s. 21.

(3) For a person who is covered for the first time, the appropriate percentage for purposes of subsection (2) is 75.

(4) For a person who had coverage in the 1992 crop year but made no claim for that crop year, the appropriate percentage for purposes of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1:

(4) The Commission shall determine “A” by the following formula:

(5) Despite subsection (4), “A” shall not be more than 0.25 or less than minus 0.25.

(6) The Commission shall determine the insured person’s loss to coverage ratio by dividing the total dollar value of the payments made by the Commission to the insured person for the number of years the insured person has been enrolled in the plan, by the total dollar value of the insured person’s coverage for the number of years the insured person has been enrolled in the plan.

(7) The Commission shall determine the plan’s loss to coverage ratio by dividing the total dollar value of the payments made by the Commission in respect of all claims made by insured persons under the plan for the number of years the plan has been in effect, by the total dollar value of coverage extended by the plan for the number of years it has been in effect.

(7) Pour chaque campagne agricole postérieure à celle de 1993, le pourcentage approprié pour l’application du paragraphe (2) est celui qui figure à la colonne 2 du tableau suivant en regard du pourcentage utilisé dans ce calcul pour l’année précédente et figurant à la colonne 1 :

(3) La Commission détermine le taux de la prime de la façon suivante :

Taux de la prime = (1 + A) multiplié par 135,60 \$ l’acre.

(4) La Commission détermine la valeur de la variable «A» au moyen de la formule suivante :

(6) La Commission détermine la proportion que représente la perte subie par l’assuré par rapport à la garantie en divisant la valeur totale en dollars des versements qu’elle a effectués à l’assuré au cours des années pendant lesquelles celui-ci a participé au régime, par la valeur totale en dollars de la garantie de l’assuré au cours de ces années.

(7) La Commission détermine la proportion que représente la perte subie par le régime par rapport à la garantie en divisant la valeur totale en dollars des versements qu’elle a effectués à l’égard de toutes les demandes d’indemnité présentées par les assurés dans le cadre du régime au cours des années où le régime était en vigueur, par la valeur totale en dollars de la garantie supplémentaire prévue par le régime au cours de ces années.

(8) The premium determined in accordance with subsections (1) to (7) includes payments in respect of premiums made by the Province of Ontario and the Government of Canada under the *Crop Insurance Act* (Canada).

2. Paragraph 5 of Form 2 of the Regulation is revoked and the following substituted:

(3) Lorsque la personne bénéficie d'une garantie pour la première fois, le pourcentage approprié pour l'application du paragraphe (2) est de 75.

(7) The Commission shall determine the plan’s loss to coverage ratio by dividing the total dollar value of the payments made by the Commission in respect of all claims made by insured persons under the plan for the number of years the plan has been in effect, by the total dollar value of coverage extended by the plan for the number of years it has been in effect.

(4) L’article 14 de l’annexe du Règlement est abrogé et remplacé par ce qui suit :

14 (1) Les variables suivantes s’appliquent aux formules utilisées dans le présent article.

(2) La Commission détermine la prime payable au cours de la campagne agricole, en multipliant le nombre total d’acres où sont plantés des haricots colorés par le taux de la prime déterminé aux termes du paragraphe (3).

(3) La Commission détermine le taux de la prime de la façon suivante :

1. En multipliant $(1 + A)$ par 33,76 \$ l’acre, si le prix fixé correspond à 80 pour cent du prix variable au quintal.
2. En multipliant $(1 + A)$ par 42,20 \$ l’acre, si le prix fixé correspond à 100 pour cent du prix variable au quintal.

(4) La Commission détermine la valeur de la variable «A» au moyen de la formule suivante :

$$A = \frac{B \left(\frac{C}{D} - 1 \right)}{20}$$

(5) Malgré le paragraphe (4), lorsque l’assuré participe au régime depuis moins de quatre années, la variable «A» reçoit la valeur suivante :

1. Lorsque l’assuré participe au régime depuis une année, la variable «A» ne doit pas recevoir une valeur supérieure à 0,05 ni inférieure à moins 0,05.

4. Lorsque l’assuré participe au régime depuis au moins quatre années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,20.

(6) La Commission détermine la proportion que représente la perte subie par l’assuré par rapport à la garantie en divisant la valeur totale en dollars des versements qu’elle a effectués à l’assuré au cours des années pendant lesquelles celui-ci a participé au régime, par la valeur totale en dollars de la garantie de l’assuré au cours de ces années.

(7) La Commission détermine la proportion que représente la perte subie par le régime par rapport à la garantie en divisant la valeur totale en dollars des versements qu’elle a effectués à l’égard de toutes les demandes d’indemnité présentées par les assurés dans le cadre du régime au cours des années où le régime était en vigueur, par la valeur totale en dollars de la garantie supplémentaire prévue par le régime au cours de ces années.

(8) The premium determined in accordance with subsections (1) to (7) includes payments in respect of premiums made by the Province of Ontario and the Government of Canada under the *Crop Insurance Act* (Canada).

2.—(1) Subparagraph 2 (3) of Form 1 of the Regulation is revoked and the following substituted:

(3) The amount of the indemnity shall be one-third of the guaranteed production per acre of the crop with the highest priority, as set out in the Table, of the crops intended to be planted and insured by the insured person, multiplied by 28 cents per pound.

- b) soit calculé, pour le nombre d'années d'inscription au régime, sur la base des registres de production de superficie de l'assuré ou sur une autre base qui est raisonnable dans les circonstances, si l'assuré n'a pas été inscrit au régime pour neuf ans. («average farm yield»)

(2) Les articles 6, 7 et 8 de l'annexe du Règlement sont abrogés et remplacés par ce qui suit :

6 (1) Dans le cadre du présent régime, le contrat indivisible d'assurance du tabac jaune est réputé comprendre :

- a) est rédigée selon la formule fournie par la Commission;
- b) est déposée à la Commission au plus tard le 1^{er} mai au cours de la campagne agricole à l'égard de laquelle elle est présentée.

8 (1) Le contrat d'assurance est un contrat annuel en vigueur pour la campagne agricole à l'égard de laquelle il est conclu et conserve ses effets d'année en année jusqu'à ce que l'assuré ou la Commission l'annule conformément au paragraphe (2) ou jusqu'à ce qu'il prenne fin conformément aux règlements.

(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party on or before the 1st day of April in each crop year.

(3) The Commission has the right to amend the terms and conditions of the contract of insurance from year to year.

(4) Any amendments in the contract of insurance must be mailed to the insured person not later than the 15th day of March of the year for which the amendments are to be in effect.

(5) The amendments shall be deemed to be part of the contract of insurance on the 1st day of April of the year on which they are mailed.

(6) Despite subsection (1), the contract does not insure against and no indemnity shall be paid in respect of any loss or damage which occurs prior to noon on the 18th day of May first occurring in the crop year.

(3) Section 9 of the Schedule to the Regulation is revoked and the following substituted:

COVERAGE

9. For the purpose of calculating the average farm yield, the Commission shall, on an annual basis, compare the actual yield in each year of the nine-year period used to calculate the average farm yield with the average farm yield itself and,

- (a) if the actual yield in a year exceeds the insured person's nine-year average by more than 30 per cent, shall adjust the actual yield according to the formula,

$$\text{Adjusted Yield} = \text{Actual Yield} - \frac{2}{3} \left[\text{Actual Yield} - \left(\text{Average Yield} \times 1.3 \right) \right]; \text{ or}$$

- (b) if the actual yield in a year falls short of the insured person's nine-year average by more than 30 per cent, shall adjust the actual yield according to the formula,

$$\text{Adjusted Yield} = \text{Actual Yield} + \frac{2}{3} \left[\left(\text{Average Yield} \times 0.7 \right) - \text{Actual Yield} \right].$$

9.1—(1) The guaranteed production is 85 per cent of the average farm yield in pounds.

(2) The coverage provided in each crop year under Section A or B of the endorsement in Form 1 shall be computed by the Commission and shall not exceed the guaranteed production multiplied by 50 per cent of the final market average price less 5 per cent.

(5) Les modifications sont réputées faire partie du contrat d'assurance le 1^{er} avril de l'année au cours de laquelle elles sont mises à la poste.

(6) Malgré le paragraphe (1), le contrat n'assure pas les récoltes contre les pertes et les dommages qui surviennent avant 12 h, le 18 du premier mois de mai au cours de la campagne agricole, et aucune indemnité n'est alors payée.

(3) L'article 9 de l'annexe du Règlement est abrogé et remplacé par ce qui suit :

MONTANT ET ÉTENDUE DE LA GARANTIE

9 Aux fins de calculer le rendement moyen de l'exploitation agricole, la Commission compare, sur une base annuelle, le rendement réel dans chaque année de la période de neuf ans servant à calculer le rendement moyen de l'exploitation agricole avec le rendement moyen de l'exploitation agricole comme tel, et :

- a) si le rendement réel d'une année est supérieur de plus de 30 pour cent à la moyenne de dix ans de l'assuré, rajuste le rendement réel selon la formule,

$$\text{Rendement rajusté} = \text{Rendement réel} - \frac{2}{3} \left[\text{Rendement réel} - \left(\text{Rendement moyen} \times 1,3 \right) \right]$$

- b) si le rendement réel d'une année est inférieur de plus de 30 pour cent à la moyenne de dix ans de l'assuré, rajuste le rendement réel selon la formule,

$$\text{Rendement rajusté} = \text{Rendement réel} + \frac{2}{3} \left[\left(\text{Rendement moyen} \times 0,7 \right) - \text{Rendement réel} \right]$$

9.1 (1) La production garantie est égale à 85 pour cent du rendement moyen de l'exploitation agricole calculé en livres.

(2) La garantie fournie pour une campagne agricole aux termes de la partie A ou B de l'avenant rédigé selon la formule 1 est calculée par la Commission et ne doit pas excéder la production garantie multiplié par 50 pour cent du prix moyen définitif du marché moins 5 pour cent.

(4) L'article 10 de l'annexe du Règlement est modifié par substitution, à «80» à la troisième ligne, de «85».

(5) Le paragraphe 11 (1) de l'annexe du Règlement est abrogé et remplacé par ce qui suit :

11 (1) Sous réserve des paragraphes (2), (3), (4), (5) et (6), la prime payable par l'assuré est fixée d'après le tableau suivant :

(4) The Commission shall determine "A" by the following formula:

$$A = B \left(\frac{C}{D} - 1 \right)$$

20

(5) Despite subsection (4), "A" shall be introduced as follows:

1. For an insured person who has participated in the plan for one year, "A" shall not be more than 0.05 or less than minus 0.05.

(6) The Commission shall determine the insured person's loss to coverage ratio by dividing the total dollar value of the payments made by the Commission to the insured person for the number of years the insured person has been enrolled in the plan, by the total dollar value of the insured person's coverage for the number of years the insured person has been enrolled in the plan.

(7) The Commission shall determine the plan's loss to coverage ratio by dividing the total dollar value of the payments made by the Commission in respect of all claims made by insured persons under the plan for the number of years the plan has been in effect, by the total dollar value of coverage extended by the plan for the number of years it has been in effect.

(8) The premium determined in accordance with subsections (1) to (7) includes payments in respect of premiums made by the Province of Ontario and the Government of Canada under the *Crop Insurance Act* (Canada).

2.—(1) Subparagraph 2 (3) of Form 1 of the Regulation is revoked and the following substituted:

(3) The amount of the indemnity shall be one-third of the guaranteed production per acre of the crop with the highest priority in Table 1 of the crops that were intended to be planted and that were insured by the insured person, multiplied by 12 cents per pound for canola and by \$6.25 per bushel for soybeans.

(2) Subparagraph 3 (2) of Form 1 of the Regulation is revoked and the following substituted:

(2) Where the damaged acreage is replanted in accordance with subparagraph (1), the Commission shall pay a supplementary benefit to the insured person calculated at the rate of,

- (a) \$40 for each replanted acre of canola; and
- (b) \$45 for each replanted acre of soybeans.

(3) Form 1 of the Regulation is amended by adding the following paragraphs:

4.1 Despite paragraphs 2, 3 and 4, for the purposes of determining loss in production of winter canola in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 4.2 and 4.3.

STAGE 1

4.2—(1) Stage 1 comprises the period from which the seeding of acreage to winter canola is completed to and including the 1st day of July in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission, upon

application in writing by the insured person, may consent in writing to the seeding of the damaged acreage to another crop.

(3) Where the damaged acreage is three acres or more and the Commission consents to the seeding of the damaged acreage to another crop, the contract of insurance shall cease to apply to the reseeded acreage, the total guaranteed production shall be reduced accordingly and the Commission shall pay to the insured person for each acre reseeded a reseeding benefit of \$40 per acre.

(4) Where the insured person elects to harvest the insured crop on the damaged acreage and the damaged acreage is not reseeded,

- (a) the Commission shall determine the number of damaged acres and the potential production of them;
- (b) the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the established price per pound by the lesser of,
 - (i) 50 per cent of the guaranteed production for the damaged acreage, or
 - (ii) the difference between the guaranteed production and the potential production determined by the Commission; and
- (c) the value of the crop shall proceed into Stage 2.

(5) Despite any application made in writing by the insured person, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on the damaged acreage and to calculate the amount of loss in the manner prescribed in clause (4) (b) with respect to the damaged acreage.

(6) Where notice of the intention has been given under subparagraph (5), the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss.

(7) The value of the insured crop on the damaged acreage under subparagraphs (5) and (6) shall not progress beyond Stage 1.

STAGE 2

4.3—(1) Stage 2 commences on the 2nd day of July in the crop year and, with respect to any part of the seeded acreage, ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application in writing by the insured person, may consent in writing to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, shall determine the number of damaged acres and the potential production of them.

(3) Where the insured crop is abandoned or destroyed in accordance with subparagraph (2), the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between,

- (a) the guaranteed production for the damaged acreage; and
- (b) the potential production for the damaged acreage determined under subparagraph (2),

by the established price per pound.

(4) Where the insured crop is not abandoned or destroyed after the Commission has consented under subparagraph (2), the amount of loss calculated under subparagraph (3) shall not be taken into account in the final adjustment of loss.

(5) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall

be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between,

- (a) the guaranteed production; and
- (b) the actual production,

by the established price per pound.

3.—(1) Subparagraph 8 (1) of Form 3 of the Regulation is amended by striking out “4” in the first line and substituting “2”.

(2) Sub-subparagraph ii of subparagraph 3 of paragraph 10 of Form 3 of the Regulation is amended by striking out “\$6.05” in the second line and substituting “\$6.25”.

4. Subparagraph 5 (1) of Form 4 of the Regulation is revoked and the following substituted:

(1) The total premium payable in the crop year for both the contract of insurance and this endorsement is the same as that determined in accordance with section 18 of the Schedule except that the Commission shall not determine the premium rate by the formula in subsection 18 (3) of the Schedule but by the following formula:

1. If the established price is 80 per cent of the floating price per pound, by multiplying $(1 + A)$ by \$16.48 per acre.
2. If the established price is 100 per cent of the floating price per pound, by multiplying $(1 + A)$ by \$20.60 per acre.

5. Table 2 of the Regulation is revoked and the following substituted:

(3) For a person who is covered for the first time, the appropriate percentage for purposes of subsection (2) is 75.

(4) For a person who had coverage in the 1992 crop year but made no claim for that crop year, the appropriate percentage for purposes of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1:

6 (1) Dans le cadre du présent régime, le contrat indivisible d'assurance du maïs à éclater est réputé comprendre :

- (a) be in a form provided by the Commission; and
- (b) be filed with the Commission not later than the 1st day of May in the crop year in respect of which it is made.

8.—(1) A contract of insurance shall be an annual contract in force for the crop year in respect of which it is made and shall remain in effect from year to year until it is cancelled by the insured person or the Commission in the manner prescribed by subsection (2) or is terminated in accordance with the regulations.

(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party on or before the 1st day of April in each crop year.

(4) Any amendments in the contract of insurance must be mailed to the insured person not later than the 15th day of March of the year for which the amendments are to be in effect.

(5) The amendments shall be deemed to be part of the contract of insurance on the 1st day of April of the year on which they are mailed.

(6) Despite subsection (1), the amount of indemnity payable by the Commission to an insured person shall be calculated for loss to the insured crop occurring only during the period commencing with the time the insured crop is seeded and end at the earlier of the time the insured crop or any part thereof is put to a use other than that for which it was originally intended or the time the insured crop is harvested or would normally have been harvested in accordance with the regulations.

8.1—(1) The Commission shall, by the 15th day of March in each year, forward to the insured person a renewal notice and a change notice.

(2) En cas d'incompatibilité entre les documents visés aux alinéas (1) a) et d), le document visé à l'alinéa (1) d) l'emporte.

7 La proposition d'assurance est utilisée par le proposant pour présenter sa proposition initiale d'assurance-récolte à la Commission et :

- a) est rédigée selon la formule fournie par la Commission;
- b) est déposée à la Commission au plus tard le 1^{er} mai au cours de la campagne agricole à l'égard de laquelle elle est présentée.

8 (1) Le contrat d'assurance est un contrat annuel en vigueur pour la campagne agricole à l'égard de laquelle il est conclu et conserve ses effets d'année en année jusqu'à ce que l'assuré ou la Commission l'annule conformément au paragraphe (2) ou jusqu'à ce qu'il prenne fin conformément aux règlements.

(2) L'assuré ou la Commission peut annuler le contrat d'assurance en avisant par écrit l'autre partie au plus tard le 1^{er} avril au cours de la campagne agricole.

(3) La Commission a le droit de modifier les conditions du contrat d'assurance d'année en année.

(4) Les modifications apportées au contrat d'assurance doivent être envoyées par la poste à l'assuré au plus tard le 15 mars de l'année à l'égard de laquelle elles doivent prendre effet.

(5) Les modifications sont réputées faire partie du contrat d'assurance le 1^{er} avril de l'année au cours de laquelle elles sont mises à la poste.

(6) Malgré le paragraphe (1), le montant de l'indemnité payable par la Commission à l'assuré est calculé pour les seules pertes de récolte assurée qui surviennent au cours de la période commençant à la date d'ensemencement de la récolte assurée et se terminant soit à la date à laquelle la récolte assurée est utilisée en totalité ou en partie à des fins autres que celles qui étaient initialement prévues, soit à la date à laquelle elle est récoltée ou l'aurait normalement été conformément aux règlements, selon la plus rapprochée de ces deux dates.

8.1 (1) Au plus tard le 15 mars au cours de chaque année, la Commission fait parvenir à l'assuré un avis de renouvellement et un avis de changement.

(2) L'avis de renouvellement doit confirmer le détail des choix relatifs à l'assurance-récolte exercés par l'assuré pour l'année précédente et décrire les modifications apportées au contrat d'assurance.

(3) Les choix exercés par l'assuré pour l'année précédente, tels qu'ils sont décrits dans l'avis de renouvellement, s'appliquent à moins que l'assuré ne fasse parvenir un avis de changement à la Commission.

(4) L'avis de renouvellement et l'avis de changement peuvent être signifiés à l'assuré soit à personne, soit par courrier à sa dernière adresse connue, auquel cas l'avis est réputé avoir été signifié trois jours après sa mise à la poste.

(5) La Commission doit recevoir l'avis de changement au plus tard le 1^{er} mai au cours de l'année s'il est remis à personne. S'il est mis à la poste, l'oblitération doit dater au plus tard du 1^{er} mai au cours de l'année.

(2) L'article 10 de l'annexe du Règlement est abrogé et remplacé par ce qui suit :

10 (1) La garantie fournie aux termes du contrat d'assurance est égale au montant obtenu en multipliant la production garantie totale par le prix fixé.

(2) The total guaranteed production under a contract of insurance is the average farm yield in pounds as determined by the Commission multiplied by the total number of acres planted to popping corn multiplied by the appropriate percentage as set out in subsections (3) to (7).

(3) For a person who is covered for the first time, the appropriate percentage for purposes of subsection (2) is 75.

(4) For a person who had coverage in the 1992 crop year but made no claim for that crop year, the appropriate percentage for purposes of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1:

(5) For a person who made a claim for the 1992 crop year, the appropriate percentage for the purpose of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1 except that if the insured person has had both coverage and an actual yield for at least five years and if the 1992 crop year's coverage was at 80 per cent, the insured person's coverage remains at 80 per cent:

(6) Despite subsection (5), if for the 1992 crop year the claim paid is less than one-half of the total premium for that year, the coverage for the 1993 crop year is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1:

(2) La production garantie totale aux termes du contrat d'assurance est égale au montant obtenu en multipliant le rendement moyen de l'exploitation agricole, calculé en livres, que détermine la Commission, par le nombre total d'acres où est planté du maïs à éclater, ce nombre étant ensuite multiplié par le pourcentage approprié prévu aux paragraphes (3) à (7).

(3) Lorsque la personne bénéficie d'une garantie pour la première fois, le pourcentage approprié pour l'application du paragraphe (2) est de 75.

(4) Lorsque la personne a bénéficié d'une garantie pendant la campagne agricole de 1992 sans toutefois réclamer d'indemnité à cet égard, le pourcentage approprié aux fins de l'application du paragraphe (2) est celui qui figure à la colonne 2 du tableau suivant en regard du pourcentage utilisé dans ce calcul pour la campagne agricole de 1992 et figurant à la colonne 1 :

(6) Malgré le paragraphe (5), si, pour la campagne agricole de 1992, l'indemnité payée est inférieure à la moitié de la prime totale de cette campagne, la garantie de la campagne agricole de 1993 est celle qui figure à la colonne 2 du tableau suivant en regard du pourcentage utilisé dans ce calcul pour la campagne agricole de 1992 et figurant à la colonne 1 :

“C” is the insured person’s loss to coverage ratio determined in accordance with subsection (6), and

“D” is the plan’s loss to coverage ratio determined in accordance with subsection (7).

(2) The Commission shall determine the premium payable in the crop year by multiplying the total number of acres planted to popping corn by the premium rate as determined under subsection (3).

(3) The Commission shall determine the premium rate as follows:

Taux de la prime = $(1 + A) \times 47,80$ \$ l’acre.

(7) The Commission shall determine the plan's loss to coverage ratio by dividing the total dollar value of the payments made by the Commission in respect of all claims made by insured persons under the plan for the number of years the plan has been in effect, by the total dollar value of coverage extended by the plan for the number of years it has been in effect.

(8) The premium determined in accordance with subsections (1) to (7) includes payments in respect of premiums made by the Province of Ontario and the Government of Canada under the *Crop Insurance Act* (Canada).

(3) For a person who is covered for the first time, the appropriate percentage for purposes of subsection (2) is 75.

(4) For a person who had coverage in the 1992 crop year but made no claim for that crop year, the appropriate percentage for purposes of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1:

- En multipliant $(1 + A)$ par 7,70 \$ l'acre, si le prix fixé correspond à 80 pour cent du prix variable le boisseau.

(5) Les modifications sont réputées faire partie du contrat d'assurance le 1^{er} avril de l'année au cours de laquelle elles sont mises à la poste.

(6) Malgré le paragraphe (1), le montant de l'indemnité payable par la Commission à l'assuré est calculé pour les seules pertes de récolte assurée qui surviennent au cours de la période commençant à la date d'ensemencement de la récolte assurée et se terminant soit à la date à laquelle la récolte assurée est utilisée en totalité ou en partie à des fins autres que celles qui étaient initialement prévues, soit à la date à laquelle elle est récoltée ou l'aurait normalement été conformément aux règlements, selon la plus rapprochée de ces deux dates.

8.1—(1) The Commission shall, by the 15th day of March in each year, forward to the insured person a renewal notice and a change notice.

(2) The renewal notice must confirm the details of the insured person's previous year's crop insurance elections and describe any amendments to the contract of insurance.

(4) The renewal notice and the change notice may be served by personal delivery or by mailing it to the insured person's last known address, in which case the notification shall be deemed to be served three days after it is mailed.

(5) The change notice must be received by the Commission on or before the 1st day of May in each year if delivered personally or if mailed, postmarked on or before the 1st day of May in each year.

(3) For a person who is covered for the first time, the appropriate percentage for purposes of subsection (2) is 75.

(4) For a person who had coverage in the 1992 crop year but made no claim for that crop year, the appropriate percentage for purposes of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1:

(6) Malgré le paragraphe (1), le montant de l'indemnité payable par la Commission à l'assuré est calculé pour les seules pertes de récolte assurée qui surviennent au cours de la période commençant à la date d'ensemencement de la récolte assurée et se terminant soit à la date à laquelle la récolte assurée est utilisée en totalité ou en partie à des fins autres que celles qui étaient initialement prévues, soit à la date à laquelle elle est récoltée ou l'aurait normalement été conformément aux règlements, selon la plus rapprochée de ces deux dates.

8.—(1) The Commission shall, by the 15th day of March in each year, forward to the insured person a renewal notice and a change notice.

(2) The renewal notice must confirm the details of the insured person's previous year's crop insurance elections and describe any amendments to the contract of insurance.

- (b) the average daily elevator board price per bushel of grain corn at Hensall, Ontario, plus the difference between the average daily elevator track price per bushel of grain corn at Chatham, Ontario, and the average daily elevator board price per bushel of grain corn at Chatham, Ontario, as reported by the Farm Market News for the period October 21 to November 10.

(3) In this section,

“elevator board price” means the average price paid by elevator operators to purchase grain corn from producers; (“prix coté au silo”)

2. Paragraph 4 of Form 1 of the Regulation is revoked and the following substituted:

4.—(1) Where, as the result of an insured peril, the insured crop or any part thereof is suitable only for feed, the insured person shall file with the Commission, by the 30th day of November in the crop year, a notice of salvage loss signed by the dealer with whom the insured person entered into a contract for seed corn.

(2) The notice of salvage loss under subsection (1) shall indicate that the insured crop or any part thereof is suitable only for feed and is of insufficient quality to satisfy the dealer's contract for seed corn.

(3) The Commission shall assess the salvage loss and shall notify the insured person of the amount of the actual production for the damaged acreage.

8 (1) Au plus tard le 15 mars au cours de chaque année, la Commission fait parvenir à l'assuré un avis de renouvellement et un avis de changement.

(2) L'avis de renouvellement doit confirmer le détail des choix relatifs à l'assurance-récolte exercés par l'assuré pour l'année précédente et décrire les modifications apportées au contrat d'assurance.

(3) Les choix exercés par l'assuré pour l'année précédente, tels qu'ils sont décrits dans l'avis de renouvellement, s'appliquent à moins que l'assuré ne fasse parvenir un avis de changement à la Commission.

(4) L'avis de renouvellement et l'avis de changement peuvent être signifiés à l'assuré soit à personne, soit par courrier à sa dernière adresse connue, auquel cas l'avis est réputé avoir été signifié trois jours après sa mise à la poste.

(5) La Commission doit recevoir l'avis de changement au plus tard le 10 mai au cours de l'année s'il est remis à personne. S'il est mis à la poste, l'oblitération doit dater au plus tard du 10 mai au cours de l'année.

2 La disposition 4 de la formule 1 du Règlement est abrogée et remplacée par ce qui suit :

4 (1) Lorsque, en raison d'un risque assuré, la totalité ou une partie de la récolte assurée ne peut servir que de fourrage, l'assuré dépose auprès de la Commission, au plus tard le 30 novembre de la campagne agricole, un avis de perte de récupération signé par le marchand avec qui l'assuré a conclu un contrat visant le maïs de semence.

(2) L'avis de perte de récupération visé au paragraphe (1) indique que la totalité ou une partie de la récolte assurée ne peut servir que de fourrage et est de qualité insuffisante pour satisfaire aux conditions du contrat du marchand visant le maïs de semence.

(3) La Commission évalue la perte de récupération et avise l'assuré de la valeur de la production réelle de la superficie endommagée.

(4) The amount of loss that shall be taken into account in the final adjustment of loss under this section shall be the amount by which the guaranteed production under this plan for the damaged acreage exceeds the actual production for the damaged acreage multiplied by the floating price.

- a) est rédigée selon la formule fournie par la Commission;
- b) est déposée à la Commission au plus tard le 1^{er} mai au cours de la campagne agricole à l'égard de laquelle elle est présentée.

8 (1) Le contrat d'assurance est un contrat annuel en vigueur pour la campagne agricole à l'égard de laquelle il est conclu et conserve ses effets d'année en année jusqu'à ce que l'assuré ou la Commission l'annule conformément au paragraphe (2) ou jusqu'à ce qu'il prenne fin conformément aux règlements.

(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party on or before the 1st day of April in each crop year.

(3) The Commission has the right to amend the terms and conditions of the contract of insurance from year to year.

(4) Any amendments in the contract of insurance must be mailed to the insured person not later than the 15th day of March of the year for which the amendments are to be in effect.

(5) The amendments shall be deemed to be part of the contract of insurance on the 1st day of April of the year on which they are mailed.

(6) Despite subsection (1), the amount of indemnity payable by the Commission to an insured person shall be calculated for loss to the insured crop occurring only during the period commencing with the time the insured crop is seeded and end at the earlier of the time the insured crop or any part thereof is put to a use other than that for which it was originally intended or the time the insured crop is harvested or would normally have been harvested in accordance with the regulations.

(5) The change notice must be received by the Commission on or before the 1st day of May in each year if delivered personally or if mailed, postmarked on or before the 1st day of May in each year.

(2) Section 11 of the Schedule to the Regulation is revoked and the following substituted:

11.—(1) The coverage provided under a contract of insurance is the total guaranteed production multiplied by the established price.

(2) The total guaranteed production under a contract of insurance is the average farm yield in pounds as determined by the Commission multiplied by the total number of acres planted to spring grain multiplied by the appropriate percentage as set out in subsections (3) to (7).

(3) For a person who is covered for the first time, the appropriate percentage for purposes of subsection (2) is 75.

(4) For a person who had coverage in the 1992 crop year but made no claim for that crop year, the appropriate percentage for purposes of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1:

(2) L'assuré ou la Commission peut annuler le contrat d'assurance en avisant par écrit l'autre partie au plus tard le 1^{er} avril au cours de la campagne agricole.

(3) La Commission a le droit de modifier les conditions du contrat d'assurance d'année en année.

(4) Les modifications apportées au contrat d'assurance doivent être envoyées par la poste à l'assuré au plus tard le 15 mars de l'année à l'égard de laquelle elles doivent prendre effet.

(5) Les modifications sont réputées faire partie du contrat d'assurance le 1^{er} avril de l'année au cours de laquelle elles sont mises à la poste.

(6) Malgré le paragraphe (1), le montant de l'indemnité payable par la Commission à l'assuré est calculé pour les seules pertes de récolte assurée qui surviennent au cours de la période commençant à la date d'ensemencement de la récolte assurée et se terminant soit à la date à laquelle la récolte assurée est utilisée en totalité ou en partie à des fins autres que celles qui étaient initialement prévues, soit à la date à laquelle elle est récoltée ou l'aurait normalement été conformément aux règlements, selon la plus rapprochée de ces deux dates.

8.1 (1) Au plus tard le 15 mars au cours de chaque année, la Commission fait parvenir à l'assuré un avis de renouvellement et un avis de changement.

(2) L'avis de renouvellement doit confirmer le détail des choix relatifs à l'assurance-récolte exercés par l'assuré pour l'année précédente et décrire les modifications apportées au contrat d'assurance.

(3) Les choix exercés par l'assuré pour l'année précédente, tels qu'ils sont décrits dans l'avis de renouvellement, s'appliquent à moins que l'assuré ne fasse parvenir un avis de changement à la Commission.

(4) L'avis de renouvellement et l'avis de changement peuvent être signifiés à l'assuré soit à personne, soit par courrier à sa dernière adresse connue, auquel cas l'avis est réputé avoir été signifié trois jours après sa mise à la poste.

(5) La Commission doit recevoir l'avis de changement au plus tard le 1^{er} mai au cours de l'année s'il est remis à personne. S'il est mis à la poste, l'oblitération doit dater au plus tard du 1^{er} mai au cours de l'année.

(2) L'article 11 de l'annexe du Règlement est abrogé et remplacé par ce qui suit :

11 (1) La garantie fournie aux termes du contrat d'assurance est égale au montant obtenu en multipliant la production garantie totale par le prix fixé.

(2) La production garantie totale aux termes du contrat d'assurance est égale au montant obtenu en multipliant le rendement moyen de l'exploitation agricole, calculé en livres, que détermine la Commission, par le nombre total d'acres où sont plantés des céréales de printemps, ce nombre étant ensuite multiplié par le pourcentage approprié prévu aux paragraphes (3) à (7).

(3) Lorsque la personne bénéficie d'une garantie pour la première fois, le pourcentage approprié pour l'application du paragraphe (2) est de 75.

(4) Lorsque la personne a bénéficié d'une garantie pendant la campagne agricole de 1992 sans toutefois réclamer d'indemnité à cet égard, le pourcentage approprié aux fins de l'application du paragraphe (2) est celui qui figure à la colonne 2 du tableau suivant en regard du pourcentage utilisé dans ce calcul pour la campagne agricole de 1992 et figurant à la colonne 1 :

(3) Section 14 of the Schedule to the Regulation is revoked and the following substituted:

14.—(1) In the formulas used in this section,

“A” is the surcharge or discount rate determined in accordance with subsections (4) and (5),

“B” is the number of years the insured person has been enrolled in the plan,

“C” is the insured person’s loss to coverage ratio determined in accordance with subsection (6), and

“D” is the plan’s loss to coverage ratio determined in accordance with subsection (7).

(2) The Commission shall determine the premium payable in the crop year by multiplying the total number of acres planted to spring grain by the premium rate as determined under subsection (3).

(3) The Commission shall determine the premium rate as follows:

1. If the established price is 80 per cent of the floating price per pound, by multiplying $(1 + A)$ by \$8.16 per acre.
2. If the established price is 100 per cent of the floating price per pound, by multiplying $(1 + A)$ by \$10.20 per acre.

(4) The Commission shall determine “A” by the following formula:

$$A = B \left(\frac{C}{D} - 1 \right) \\ 20$$

(5) Despite subsection (4), “A” shall be introduced as follows:

1. For an insured person who has participated in the plan for one year, “A” shall not be more than 0.05 or less than minus 0.05.
2. For an insured person who has participated in the plan for two years, “A” shall not be more than 0.10 or less than minus 0.10.
3. For an insured person who has participated in the plan for three years, “A” shall not be more than 0.10 or less than minus 0.15.
4. For an insured person who has participated in the plan for four or more years, “A” shall not be more than 0.10 or less than minus 0.20.

(6) The Commission shall determine the insured person’s loss to coverage ratio by dividing the total dollar value of the payments made by the Commission to the insured person for the number of years the insured person has been enrolled in the plan, by the total dollar value of the insured person’s coverage for the number of years the insured person has been enrolled in the plan.

(7) The Commission shall determine the plan’s loss to coverage ratio by dividing the total dollar value of the payments made by the Commission in respect of all claims made by insured persons under the plan for the number of years the plan has been in effect, by the total dollar value of coverage extended by the plan for the number of years it has been in effect.

(3) L’article 14 de l’annexe du Règlement est abrogé et remplacé par ce qui suit :

14 (1) Les variables suivantes s’appliquent aux formules utilisées dans le présent article.

«A» s’entend de la surcharge ou du taux d’escompte déterminés conformément aux paragraphes (4) et (5).

«B» s’entend du nombre d’année pendant lesquelles l’assuré a participé au régime.

«C» s’entend de la proportion que représente la perte subie par l’assuré par rapport à la garantie, déterminée conformément au paragraphe (6).

«D» s’entend de la proportion que représente la perte subie par le régime par rapport à la garantie, déterminée conformément au paragraphe (7).

(2) La Commission détermine la prime payable au cours de la campagne agricole, en multipliant le nombre total d’acres où sont plantés des céréales de printemps par le taux de la prime déterminé aux termes du paragraphe (3).

(3) La Commission détermine le taux de la prime de la façon suivante :

1. En multipliant $(1 + A)$ par 8,16 \$ l’acre, si le prix fixé correspond à 80 pour cent du prix variable la livre.
2. En multipliant $(1 + A)$ par 10,20 \$ l’acre, si le prix fixé correspond à 100 pour cent du prix variable la livre.

(4) La Commission détermine la valeur de la variable «A» au moyen de la formule suivante :

$$A = B \left(\frac{C}{D} - 1 \right) \\ 20$$

(5) Malgré le paragraphe (4), lorsque l’assuré participe au régime depuis moins de quatre années, la variable «A» reçoit la valeur suivante :

1. Lorsque l’assuré participe au régime depuis une année, la variable «A» ne doit pas recevoir une valeur supérieure à 0,05 ni inférieure à moins 0,05.
2. Lorsque l’assuré participe au régime depuis deux années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,10.
3. Lorsque l’assuré participe au régime depuis trois années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,15.
4. Lorsque l’assuré participe au régime depuis au moins quatre années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,20.

(6) La Commission détermine la proportion que représente la perte subie par l’assuré par rapport à la garantie en divisant la valeur totale en dollars des versements qu’elle a effectués à l’assuré au cours des années pendant lesquelles celui-ci a participé au régime, par la valeur totale en dollars de la garantie de l’assuré au cours de ces années.

(7) La Commission détermine la proportion que représente la perte subie par le régime par rapport à la garantie en divisant la valeur totale en dollars des versements qu’elle a effectués à l’égard de toutes les demandes d’indemnité présentées par les assurés dans le cadre du régime au cours des années où le régime était en vigueur, par la valeur totale en dollars de la garantie supplémentaire prévue par le régime au cours de ces années.

(8) The premium determined in accordance with subsections (1) to (7) includes payments in respect of premiums made by the Province of Ontario and the Government of Canada under the *Crop Insurance Act* (Canada).

2. Paragraph 5 of Form 1 of the Regulation is revoked and the following substituted:

5. The total premium payable in the crop year for both the contract of insurance and this endorsement is the same as that determined in accordance with section 14 of the Schedule except that the Commission shall not determine the premium rate by the formula in subsection 14 (3) of the Schedule but by the following formula:

1. If the established price is 80 per cent of the floating price per pound, by multiplying $(1 + A)$ by \$9.44 per acre.
2. If the established price is 100 per cent of the floating price per pound, by multiplying $(1 + A)$ by \$11.80 per acre.

3.—(1) Subparagraph 3 (3) of Form 2 of the Regulation is amended by striking out “\$0.045” in the fourth line and substituting “\$0.047”.

- (a) if the actual yield in a year exceeds the insured person's ten-year average by more than 30 per cent, shall adjust the actual yield according to the formula,

$$\text{Adjusted Yield} = \text{Actual Yield} - \frac{2}{3} \left[\text{Actual Yield} - \left(\text{Average} \times 1.3 \right) \right]; \text{ or}$$

- (b) if the actual yield in a year falls short of the insured person's ten-year average by more than 30 per cent, shall adjust the actual yield according to the formula,

(2) The total guaranteed production under a contract of insurance is the average farm yield in pounds as determined by the Commission multiplied by the total number of acres planted to sunflowers multiplied by the appropriate percentage as set out in subsections (3) to (7).

(3) For a person who is covered for the first time, the appropriate percentage for purposes of subsection (2) is 75.

(4) For a person who had coverage in the 1992 crop year but made no claim for that crop year, the appropriate percentage for purposes of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1:

- a) si le rendement réel d'une année est supérieur de plus de 30 pour cent à la moyenne de dix ans de l'assuré, rajuste le rendement réel selon la formule,

9.1 (1) La garantie fournie aux termes du contrat d'assurance est égale au montant obtenu en multipliant la production garantie totale par le prix fixé.

(2) La production garantie totale aux termes du contrat d'assurance est égale au montant obtenu en multipliant le rendement moyen de l'exploitation agricole, calculé en livres, que détermine la Commission, par le nombre total d'acres où sont plantés des tournesols, ce nombre étant ensuite multiplié par le pourcentage approprié prévu aux paragraphes (3) à (7).

(3) Lorsque la personne bénéficie d'une garantie pour la première fois, le pourcentage approprié pour l'application du paragraphe (2) est de 75.

(3) The Commission shall determine the premium rate as follows:

$$\text{Premium rate} = \$24.40 \times (1 + A).$$

(4) The Commission shall determine "A" by the following formula:

(6) The Commission shall determine the insured person's loss to coverage ratio by dividing the total dollar value of the payments made by the Commission to the insured person for the number of years the insured person has been enrolled in the plan, by the total dollar value of the insured person's coverage for the number of years the insured person has been enrolled in the plan.

(7) The Commission shall determine the plan's loss to coverage ratio by dividing the total dollar value of the payments made by the Commission in respect of all claims made by insured persons under the plan for the number of years the plan has been in effect, by the total dollar value of coverage extended by the plan for the number of years it has been in effect.

modifiant le Règl. 254 des R.R.O. de 1990
(Régime d'assurance-récolte sur les haricots blancs)

Remarque : Depuis le 1^{er} janvier 1993, le Règlement 254 a été modifié par le Règlement de l'Ontario 272/93. Pour les modifications antérieures, voir la Table des règlements qui figure dans les Lois de l'Ontario de 1992.

1 (1) Les articles 6, 7 et 8 de l'annexe du Règlement 254 des Règlements refondus de l'Ontario de 1990 sont abrogés et remplacés par ce qui suit :

6 (1) Dans le cadre du présent régime, le contrat indivisible d'assurance des haricots blancs est réputé comprendre :

- a) le contrat d'assurance rédigé selon la formule prescrite par le Règlement 256 des Règlements refondus de l'Ontario de 1990;
- b) la proposition ou l'avis de renouvellement d'assurance;
- c) l'avis de changement, le cas échéant;
- d) l'avenant relatif aux haricots blancs rédigé selon la formule 1;
- e) le rapport final sur la superficie pour chaque campagne agricole.

(2) En cas d'incompatibilité entre les documents visés aux alinéas (1) a) et d), le document visé à l'alinéa (1) d) l'emporte.

7 La proposition d'assurance est utilisée par le proposant pour présenter sa proposition initiale d'assurance-récolte à la Commission et :

- a) est rédigée selon la formule fournie par la Commission;
- b) est déposée à la Commission au plus tard le 1^{er} mai au cours de la campagne agricole à l'égard de laquelle elle est présentée.

8 (1) Le contrat d'assurance est un contrat annuel en vigueur pour la campagne agricole à l'égard de laquelle il est conclu et conserve ses effets d'année en année jusqu'à ce que l'assuré ou la Commission l'annule conformément au paragraphe (2) ou jusqu'à ce qu'il prenne fin conformément aux règlements.

(2) L'assuré ou la Commission peut annuler le contrat d'assurance en avisant par écrit l'autre partie au plus tard le 1^{er} avril au cours de la campagne agricole.

(3) La Commission a le droit de modifier les conditions du contrat d'assurance d'année en année.

(4) Les modifications apportées au contrat d'assurance doivent être envoyées par la poste à l'assuré au plus tard le 15 mars de l'année à l'égard de laquelle elles doivent prendre effet.

(5) Les modifications sont réputées faire partie du contrat d'assurance le 1^{er} avril de l'année au cours de laquelle elles sont mises à la poste.

(6) Malgré le paragraphe (1), le montant de l'indemnité payable par la Commission à l'assuré est calculé pour les seules pertes de récolte assurée qui surviennent au cours de la période commençant à la date d'ensemencement de la récolte assurée et se terminant soit à la date à laquelle la récolte assurée est utilisée en totalité ou en partie à des fins autres que celles qui étaient initialement prévues, soit à la date à laquelle elle est récoltée ou l'aurait normalement été conformément aux règlements, selon la plus rapprochée de ces deux dates.

8.1—(1) The Commission shall, by the 15th day of March in each year, forward to the insured person a renewal notice and a change notice.

(2) The renewal notice must confirm the details of the insured person's previous year's crop insurance elections and describe any amendments to the contract of insurance.

(3) The insured person's previous year's elections, as described in the renewal notice, apply unless the insured person forwards the change notice to the Commission.

(4) The renewal notice and the change notice may be served by personal delivery or by mailing it to the insured person's last known address, in which case the notification shall be deemed to be served three days after it is mailed.

(5) The change notice must be received by the Commission on or before the 1st day of May in each year if delivered personally or if mailed, postmarked on or before the 1st day of May in each year.

(2) Section 10 of the Schedule to the Regulation is revoked and the following substituted:

10.—(1) The coverage provided under a contract of insurance is the total guaranteed production multiplied by the established price.

(2) The total guaranteed production under a contract of insurance is the average farm yield in hundredweight as determined by the Commission multiplied by the total number of acres planted to white beans multiplied by the appropriate percentage as set out in subsections (3) to (7).

(3) For a person who is covered for the first time, the appropriate percentage for purposes of subsection (2) is 75.

(4) For a person who had coverage in the 1992 crop year but made no claim for that crop year, the appropriate percentage for purposes of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1:

TABLE

COLUMN 1	COLUMN 2
Percentage used in 1992 crop year	Percentage to be used for 1993 crop year
70	77
73	78

(5) For a person who made a claim for the 1992 crop year, the appropriate percentage for the purpose of subsection (2) is set out in Column 2 of the following Table opposite to the percentage used in that calculation for the 1992 crop year as set out in Column 1 except that if the insured person has had both coverage and an actual yield for at least five years and if the 1992 crop year's coverage was at 80 per cent, the insured person's coverage remains at 80 per cent:

8.1 (1) Au plus tard le 15 mars au cours de chaque année, la Commission fait parvenir à l'assuré un avis de renouvellement et un avis de changement.

(2) L'avis de renouvellement doit confirmer le détail des choix relatifs à l'assurance-récolte exercés par l'assuré pour l'année précédente et décrire les modifications apportées au contrat d'assurance.

(3) Les choix exercés par l'assuré pour l'année précédente, tels qu'ils sont décrits dans l'avis de renouvellement, s'appliquent à moins que l'assuré ne fasse parvenir un avis de changement à la Commission.

(4) L'avis de renouvellement et l'avis de changement peuvent être signifiés à l'assuré soit à personne, soit par courrier à sa dernière adresse connue, auquel cas l'avis est réputé avoir été signifié trois jours après sa mise à la poste.

(5) La Commission doit recevoir l'avis de changement au plus tard le 1^{er} mai au cours de l'année s'il est remis à personne. S'il est mis à la poste, l'oblitération doit dater au plus tard du 1^{er} mai au cours de l'année.

(2) L'article 10 de l'annexe du Règlement est abrogé et remplacé par ce qui suit :

10 (1) La garantie fournie aux termes du contrat d'assurance est égale au montant obtenu en multipliant la production garantie totale par le prix fixé.

(2) La production garantie totale aux termes du contrat d'assurance est égale au montant obtenu en multipliant le rendement moyen de l'exploitation agricole, calculé en livres, que détermine la Commission, par le nombre total d'acres où sont plantés des haricots blancs, ce nombre étant ensuite multiplié par le pourcentage approprié prévu aux paragraphes (3) à (7).

(3) Lorsque la personne bénéficie d'une garantie pour la première fois, le pourcentage approprié pour l'application du paragraphe (2) est de 75.

(4) Lorsque la personne a bénéficié d'une garantie pendant la campagne agricole de 1992 sans toutefois réclamer d'indemnité à cet égard, le pourcentage approprié aux fins de l'application du paragraphe (2) est celui qui figure à la colonne 2 du tableau suivant en regard du pourcentage utilisé dans ce calcul pour la campagne agricole de 1992 et figurant à la colonne 1 :

(5) Lorsque la personne a réclamé une indemnité pour la campagne agricole de 1992, le pourcentage approprié pour l'application du paragraphe (2) est celui qui figure à la colonne 2 du tableau suivant en regard du pourcentage utilisé dans ce calcul pour la campagne agricole de 1992 et figurant à la colonne 1; toutefois, si l'assuré bénéficie à la fois d'une garantie et d'un rendement réel depuis au moins cinq années et que la garantie de la campagne agricole de 1992 était de 80 pour cent, la garantie de l'assuré demeure à 80 pour cent :

(6) Malgré le paragraphe (5), si, pour la campagne agricole de 1992, l'indemnité payée est inférieure à la moitié de la prime totale de cette campagne, le pourcentage approprié pour l'application du paragraphe (2) est celui qui figure à la colonne 2 du tableau suivant en regard du pourcentage utilisé dans ce calcul pour la campagne agricole de 1992 et figurant à la colonne 1 :

«B» s'entend du nombre d'année pendant lesquelles l'assuré a participé au régime.

«C» s'entend de la proportion que représente la perte subie par l'assuré par rapport à la garantie, déterminée conformément au paragraphe (6).

«D» s'entend de la proportion que représente la perte subie par le régime par rapport à la garantie, déterminée conformément au paragraphe (7).

(2) The Commission shall determine the premium payable in the crop year by multiplying the total number of acres planted to white beans by the premium rate as determined under subsection (3).

(3) The Commission shall determine the premium rate as follows:

1. If the established price is 80 per cent of the floating price per hundredweight, by multiplying $(1 + A)$ by \$25.60 per acre.
2. If the established price is 100 per cent of the floating price per hundredweight, by multiplying $(1 + A)$ by \$32 per acre.

(4) The Commission shall determine "A" by the following formula:

$$A = B \left(\frac{C}{D} - 1 \right) \div 20$$

(5) Despite subsection (4), "A" shall be introduced as follows:

1. For an insured person who has participated in the plan for one year, "A" shall not be more than 0.05 or less than minus 0.05.
2. For an insured person who has participated in the plan for two years, "A" shall not be more than 0.10 or less than minus 0.10.
3. For an insured person who has participated in the plan for three years, "A" shall not be more than 0.10 or less than minus 0.15.

(6) The Commission shall determine the insured person's loss to coverage ratio by dividing the total dollar value of the payments made by the Commission to the insured person for the number of years the insured person has been enrolled in the plan, by the total dollar value of the insured person's coverage for the number of years the insured person has been enrolled in the plan.

(7) The Commission shall determine the plan's loss to coverage ratio by dividing the total dollar value of the payments made by the Commission in respect of all claims made by insured persons under the plan for the number of years the plan has been in effect, by the total dollar value of coverage extended by the plan for the number of years it has been in effect.

(8) The premium determined in accordance with subsections (1) to (7) includes payments in respect of premiums made by the Province of Ontario and the Government of Canada under the *Crop Insurance Act* (Canada).

2.—(1) Subparagraph 2 (3) of Form 1 of the Regulation is amended by striking out "\$18" in the last line and substituting "\$23".

(3) La Commission détermine le taux de la prime de la façon suivante :

1. En multipliant $(1 + A)$ par 25,60 \$ l'acre, si le prix fixé correspond à 80 pour cent du prix variable au quintal.
2. En multipliant $(1 + A)$ par 32 \$ l'acre, si le prix fixé correspond à 100 pour cent du prix variable au quintal.

(4) La Commission détermine la valeur de la variable «A» au moyen de la formule suivante :

$$A = B \left(\frac{C}{D} - 1 \right) \div 20$$

(5) Malgré le paragraphe (4), lorsque l'assuré participe au régime depuis moins de quatre années, la variable «A» reçoit la valeur suivante :

1. Lorsque l'assuré participe au régime depuis une année, la variable «A» ne doit pas recevoir une valeur supérieure à 0,05 ni inférieure à moins 0,05.
2. Lorsque l'assuré participe au régime depuis deux années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,10.
3. Lorsque l'assuré participe au régime depuis trois années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,15.
4. Lorsque l'assuré participe au régime depuis au moins quatre années, la variable «A» ne doit pas recevoir une valeur supérieure à 0,10 ni inférieure à moins 0,20.

(6) La Commission détermine la proportion que représente la perte subie par l'assuré par rapport à la garantie en divisant la valeur totale en dollars des versements qu'elle a effectués à l'égard de toutes les années pendant lesquelles celui-ci a participé au régime, par la valeur totale en dollars de la garantie de l'assuré au cours de ces années.

(7) La Commission détermine la proportion que représente la perte subie par le régime par rapport à la garantie en divisant la valeur totale en dollars des versements qu'elle a effectués à l'égard de toutes les demandes d'indemnité présentées par les assurés dans le cadre du régime au cours des années où le régime était en vigueur, par la valeur totale en dollars de la garantie supplémentaire prévue par le régime au cours de ces années.

(8) La prime déterminée conformément aux paragraphes (1) à (7) comprend les versements relatifs aux primes qu'effectuent la province de l'Ontario et le gouvernement du Canada en vertu de la *Loi sur l'assurance-récolte* (Canada).

3 La disposition 5 de la formule 2 du Règlement est abrogée et remplacée par ce qui suit :

5. The total premium payable in the crop year for both the contract of insurance and this endorsement is the same as that determined in accordance with section 14 of the Schedule except that the Commission shall not determine the premium rate by the formula in subsection 14 (3) of the Schedule but by the following formula:

1. If the established price is 80 per cent of the floating price per hundredweight, by multiplying $(1 + A)$ by \$30.24 per acre.
2. If the established price is 100 per cent of the floating price per hundredweight, by multiplying $(1 + A)$ by \$37.80 per acre.

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7 (4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10 (1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

INDUSTRIAL DISEASE STANDARDS PANEL

IN THE MATTER OF Section 95
of the *Workers' Compensation Act*
R.S.O. 1990, c. W.11

REQUEST FOR SUBMISSIONS

Section 95 of the *Workers' Compensation Act* provides for the creation of an Industrial Disease Standards Panel (the Panel). It is the function of the Panel to:

- investigate possible industrial diseases;
- make findings as to whether a probable connection exists between a disease and an industrial process, trade or occupation in Ontario;
- create, develop and revise criteria for the evaluation of claims respecting industrial diseases; and,
- advise on eligibility rules regarding compensation for claims respecting industrial diseases.

On February 3, 1993, the Canadian Auto Workers requested that the Industrial Disease Standards Panel investigate the potential health effects of occupational exposure to cutting fluids (machining fluids).

The Panel has solicited and received a literature review on the health effects of occupational exposure to cutting fluids by Dr. P. E. Tolbert dated August 6, 1993.

That document is available on request from the Industrial Disease Standards Panel, 69 Yonge Street, Suite #1004, Toronto, Ontario M5E 1K3 — (416) 327-4156.

Comments, briefs and submissions on that document may be made to the Panel in writing within two months of the date of this notice by mailing them to the address above.

The Report of Findings of the Industrial Disease Standards Panel will be published upon receipt by the Workers' Compensation Board and, in accordance with subsection 95 (12) of the *Workers' Compensation Act*, the Board will request written comments, briefs and submissions from any interested parties.

In August, 1986, the Workers' Compensation Board requested that the Industrial Disease Standards Panel investigate the possible connection between an elevated incidence of stomach cancer in Ontario gold miners and the mining environment. The I.D.S.P. expanded this request to include additional occupations which may also be associated with an elevated risk of stomach cancer.

The Panel has solicited and received a literature review on the possible connection between an elevated risk of stomach cancer and occupation by Dr. Susan Stock dated September, 1993.

That document is available on request from the Industrial Disease Standards Panel, 69 Yonge Street, Suite #1004, Toronto, Ontario M5E 1K3 — (416) 327-4156.

made under the
ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS
(VARIOUS MUNICIPALITIES)

1. In this Regulation, "class" means a class established under section 3. O. Reg. 605/93, s. 1.

2.—(1) This Regulation applies with respect to real property located within the following:

1. The Lakehead Locality Board of Education in the District of Thunder Bay.
2. The Township of Alberton in the District of Rainy River.
3. The Township of Sioux Narrows in the District of Kenora.

(2) This Regulation applies with respect to the assessment to be shown on the assessment roll for 1992 for the taxation year 1993 and on the assessment roll for each subsequent year until a new assessment of all property within the municipality is made. O. Reg. 605/93, s. 2.

3. The real property in each municipality is divided into the classes described in Schedule 1 and each property shall be allocated to the class that most nearly describes the physical nature and characteristics of the property. O. Reg. 605/93, s. 3.

4.—(1) For the purposes of subsection 58 (3) of the Act, the standards described in this section must be considered in equalizing assessments within the classes of real property in each municipality and in computing the factors resulting from the application of the standards.

(2) The proportion that the municipal and school board taxes levied for 1992 in each class of real property in a municipality bears to the total municipal and school board taxes levied for 1992 in the municipality must be maintained in such a way that the amount calculated using the formula,

$$A \times B$$

is substantially the same as the amount calculated using the formula,

$$A \times C$$

in which,

"A" is the single mill rate which would have resulted in the amount of municipal and school board taxes levied for 1992 against the total assessment in 1992 of all the properties that comprise the class,

"B" is the total assessment in 1992 of all the properties that comprise the class, and

"C" is the total assessment of the class for the 1993 taxation year following the application of the assessment standards described in this section.

(3) All real property within a class in a municipality must, to the extent possible, be assessed at the same proportion of market value in relation to the base year 1988.

(4) For the purpose of subsection (3), market value is as determined by the assessment commissioner in whose assessment region the real property is located.

(5) The total assessment of the real property in the municipality, including assessments made under section 33 or 34 of the Act, must not be substantially changed.

(6) The assessment relations between the classes of real property in a municipality must not be significantly altered as a result of the application of standards described in this section.

(7) Subsection (6) does not apply with respect to changes in assessment relationships that have resulted from an increase in the total assessment of a class because of assessments made under section 33 or 34 of the Act. O. Reg. 605/93, s. 4.

(2) This Regulation applies with respect to the assessment to be shown on the assessment roll for 1992 for the taxation year 1993 and on the assessment roll for each subsequent year until a new assessment of all property within the county is made in 1996 for the taxation year 1997. O. Reg. 606/93, s. 2.

3. The real property in the county is divided into the classes described in Schedule 1 and each property shall be allocated to the class that most nearly describes the physical nature and characteristics of the real property. O. Reg. 606/93, s. 3.

"C" is the total assessment of the class for the 1993 taxation year following the application of the assessment standards described in this section.

(3) All real property within a class must, to the extent possible, be assessed at the same proportion of market value in relation to the base year 1988.

(5) The total assessment of the real property in the county, including assessments made under section 33 or 34 of the *Assessment Act*, must not be substantially changed.

(6) The assessment relationships between the classes of real property must not be significantly altered as a result of the application of the standards described in this section.

DISPOSITIONS GÉNÉRALES

DÉNOMINATIONS SOCIALES

1 Dans le présent règlement, «marque de commerce» s'entend d'une marque de commerce au sens de la *Loi sur les marques de commerce* (Canada). Règl. de l'Ont. 627/93, art. 9, *en partie*.

2 (1) Le terme «dénomination sociale», dans l'expression «si l'emploi de la dénomination sociale peut s'avérer trompeur», à l'alinéa 9 (1) b) de la Loi, s'entend en outre :

- a) de la dénomination sociale qui laisserait entendre que l'entreprise que la société exploite ou envisage d'exploiter sous cette dénomination sociale et l'entreprise exploitée par une autre personne constituent une seule et même entreprise, que la nature des activités poursuivies par chacune d'elles soit généralement la même ou non;
- b) de la dénomination sociale qui laisserait entendre que la société qui utilise cette dénomination sociale ou qui envisage de le faire est ou pourrait devenir membre du même groupe qu'une autre personne ou que celle-ci a ou pourrait avoir des liens avec elle, alors que ce cas est exclu actuellement ou à l'avenir;
- c) de la dénomination sociale dont la ressemblance avec le nom d'une autre personne est susceptible d'induire quelqu'un qui est intéressé à traiter avec cette personne à le faire avec la société qui utilise cette dénomination sociale, croyant erronément traiter avec cette autre personne.

(2) Les définitions qui suivent s'appliquent au présent article.

«emploi» L'emploi réel par une personne qui exploite une entreprise au Canada ou ailleurs. («use»)

«personne» Personne qui existe ou non. («person») Règl. de l'Ont. 627/93, art. 9, *en partie*.

3 Pour l'application de l'article 12 de la Loi, les facteurs que peut considérer le directeur afin de déterminer si la dénomination sociale contrevient aux dispositions de l'article 9 de la Loi comprennent notamment :

- a) le caractère distinctif de l'ensemble ou de l'un des éléments d'un nom ou d'une marque de commerce ainsi que la faveur dont il jouit;
- b) la période de temps au cours de laquelle le nom ou la marque a été employé;
- c) le genre de biens ou de services liés à la marque de commerce ou le genre d'entreprise exploitée sous un nom ou reliée à ce nom, y compris la probabilité d'une concurrence parmi les entreprises qui emploient cette marque de commerce ou ce nom;
- d) la nature du commerce auquel est relié une marque de commerce ou un nom, y compris le genre de biens et de services ainsi que les moyens par lesquels ils sont offerts ou distribués;
- e) le degré de ressemblance graphique et phonétique entre la dénomination sociale et toute autre marque de commerce ou nom ainsi qu'entre les idées qu'elles évoquent;
- f) la région de l'Ontario où la dénomination sociale est susceptible d'être employée. Règl. de l'Ont. 627/93, art. 9, *en partie*.

4 La société peut avoir une dénomination sociale semblable à celle d'une autre personne morale si elle n'est pas membre ou ne sera pas

membre du même groupe que la personne morale, à l'une des conditions suivantes :

- a) la dénomination sociale se rattache à une société qui assume l'entreprise de la personne morale et que celle-ci a cessé ou cessera d'exercer ses activités commerciales sous cette dénomination sociale;
- b) la personne morale s'engage par écrit à se dissoudre sans délai ou à changer sa dénomination sociale avant que la société qui envisage d'employer cette dénomination sociale commence à l'employer.

De plus, soit la dénomination sociale énonce l'année de son adoption en chiffres entre parenthèses, soit des mots, des chiffres ou des initiales y sont ajoutés, supprimés ou substitués, selon le cas, soit la dénomination sociale est modifiée en substituant l'un des éléments requis aux termes du paragraphe 10 (1) de la Loi ou leurs abréviations correspondantes. Règl. de l'Ont. 627/93, art. 9, *en partie*.

5 La société peut avoir une dénomination sociale semblable à celle d'une autre personne morale si elle est membre du même groupe que cette personne morale. Règl. de l'Ont. 627/93, art. 9, *en partie*.

6 (1) Sous réserve du paragraphe (2) et de l'article 10, la société ne peut adopter une dénomination sociale identique à la dénomination sociale antérieure ou actuelle d'une autre personne morale, que cette dernière existe ou non, sauf si, selon le cas :

- a) cette personne morale a été constituée sous le régime d'une autorité législative située en dehors de l'Ontario et qu'elle n'a jamais exercé d'activités ni ne s'est jamais fait connaître en Ontario;
- b) au moins dix ans se sont écoulés depuis que la personne morale a été dissoute ou a changé sa dénomination sociale.

(2) La société peut adopter une dénomination sociale identique à celle d'une autre société si les conditions suivantes sont réunies :

- a) ni l'une ni l'autre des sociétés n'est une société faisant appel au public;
- b) les sociétés ont des liens l'une avec l'autre ou sont membres du même groupe, ou encore sont contrôlées par des personnes liées;
- c) la société qui adopte la dénomination sociale assume l'entreprise de l'autre société;
- d) l'autre société a été dissoute ou a changé sa dénomination sociale. Règl. de l'Ont. 627/93, art. 9, *en partie*.

7 Aux fins de l'adoption d'une dénomination sociale, celle-ci n'est pas dissemblable du fait de l'addition ou de la suppression de signes de ponctuation ou d'autres signes. Toutefois, pour l'application de l'article 6, la dénomination n'est plus identique si des mots, chiffres ou initiales y sont ajoutés, supprimés ou substitués ou si l'élément juridique de la dénomination sociale est modifié par la substitution de l'un des éléments obligatoires prévus au paragraphe 10 (1) de la Loi ou de leurs abréviations correspondantes. Règl. de l'Ont. 627/93, art. 9, *en partie*.

7.1 (1) Suite à la constitution de la société, la dénomination sociale actuelle figurant dans les statuts ou autres documents envoyés au directeur aux termes de la Loi est identique :

- a) à la dénomination sociale figurant dans le certificat de constitution si celle-ci n'a pas été changée;
- b) à la dénomination sociale figurant dans le certificat le plus récent qui l'a changée, dans les autres cas.

(2) Pour l'application du paragraphe (1), la dénomination sociale n'est pas identique si l'espacement, les signes de ponctuation ou autres signes ont été modifiés. Règl. de l'Ont. 627/93, art. 9, *en partie*.

8 La société peut avoir une dénomination sociale semblable au nom :

- a) d'une fiducie;
- b) d'une association;
- c) d'une société en nom collectif;
- d) d'une entreprise personnelle,

qui est connue, ou au nom connu sous lequel l'une d'elles s'identifie ou exerce ses activités commerciales, si l'une des conditions suivantes se réalise :

- e) la dénomination sociale se rattache à une société projetée qui succédera à l'entreprise déjà exploitée sous cette dénomination et que la personne qui l'utilise a cessé ou cessera d'exercer ses activités commerciales sous cette dénomination;
- f) la fiducie, l'association, la société en nom collectif ou l'entreprise personnelle connus s'engage par écrit à se dissoudre sans délai ou à changer son nom avant que la société qui envisage d'adopter ce nom commence à l'employer. Règl. de l'Ont. 627/93, art. 9, *en partie*.

9 La dénomination sociale dont l'un des mots est le même que l'élément distinctif d'une marque de commerce ou de la dénomination sociale d'une autre personne morale ou lui est semblable, ne peut, pour ce motif uniquement, être interdite, si les conditions suivantes sont réunies :

- a) la personne morale consent à son emploi;
- b) la dénomination sociale comprend d'autres mots ou expressions qui permettent de la distinguer à la fois de la personne morale et des autres personnes qui emploient cette marque de commerce ou cette dénomination sociale. Règl. de l'Ont. 627/93, art. 9, *en partie*.

10 La dénomination sociale de la société issue de la fusion de deux sociétés ou plus peut être identique à la dénomination sociale de l'une des sociétés qui fusionnent, si cette dénomination sociale n'est pas numérique. Règl. de l'Ont. 627/93, art. 9, *en partie*.

11 (1) La dénomination sociale ne peut :

- a) être en termes trop généraux;
- b) ne faire que décrire en quelque langue que ce soit la qualité, la fonction ou une autre caractéristique des biens ou services dont la société fait ou envisage de faire le commerce;

- d) être principalement ou uniquement un nom toponyme employé seul,

sauf si la dénomination sociale proposée a été employée de façon continue pendant au moins vingt ans avant la date du dépôt des statuts constitutifs ou qu'elle a, de par son emploi soutenu, acquis un caractère distinctif.

(2) La dénomination sociale ne doit pas être principalement ou uniquement une combinaison de signes de ponctuation ou d'autres signes autorisés aux termes de l'article 20. Le premier symbole doit être un chiffre arabe ou une lettre de l'alphabet. Règl. de l'Ont. 627/93, art. 9, *en partie*.

12 (1) La dénomination sociale ne doit pas comprendre des mots ou des expressions dont l'un des éléments est le nom de famille d'un particulier, qu'il soit ou non précédé de son prénom ou de ses initiales, à moins que ce particulier, ses héritiers, exécuteurs testamentaires, administrateurs successoraux, ayants droit ou son tuteur n'y consentent par écrit et que ce particulier ait, ait eu ou aura un intérêt important dans l'entreprise.

(2) Le paragraphe (1) n'a pas d'application si la société qui emploiera la dénomination sociale proposée succède à une personne autre qu'un particulier ou est un membre du même groupe que cette personne et que l'un des éléments de sa dénomination sociale est le nom de famille, à la condition :

- a) que la personne consente par écrit à l'emploi de la dénomination sociale;
- b) que, si la dénomination sociale proposée contrevient à l'alinéa 9 (1) b) de la Loi, cette personne s'engage par écrit à se dissoudre sans délai ou à changer sa dénomination sociale afin de la rendre conforme à l'alinéa 9 (1) b) de la Loi avant que la société qui envisage d'adopter la dénomination sociale commence à l'employer;
- c) que la dénomination sociale proposée ne contrevienne pas à l'article 6. Règl. de l'Ont. 627/93, art. 9, *en partie*.

13 La dénomination sociale ne doit pas, dans quelque langue que ce soit, comprendre un mot ou une expression obscène, qui évoque une entreprise scandaleuse, obscène ou immorale ou qui soit inacceptable pour des raisons d'intérêt public. Règl. de l'Ont. 627/93, art. 9, *en partie*.

14 La dénomination sociale ne doit comprendre aucun mot, expression ni abréviation dont l'emploi est interdit ou restreint aux termes d'une loi ou d'un règlement du Parlement, d'une province ou d'un territoire du Canada, sauf si l'emploi est conforme aux conditions prévues par la restriction. Règl. de l'Ont. 627/93, art. 9, *en partie*.

15 Les expressions et les mots suivants ne doivent pas être employés dans une dénomination sociale :

- 4. «Club» sauf si la société exerce des activités commerciales reliées aux sports ou à l'athlétisme et que ce mot ne porte à croire qu'un membre du public peut devenir membre de la société.
- 5. «Collège», «college», «institut», «institute», «université» ou «university» si ces mots peuvent porter quelqu'un à croire que la société est une université, un collège d'arts appliqués et de technologie ou un autre établissement d'enseignement post-secondaire.
- 6. «Condominial», «condominium» ou toute abréviation ou tout dérivé de ces mots.
- 7. «Coopérative», «co-operative» ou toute abréviation ou tout dérivé de ces mots.

10. «Ingénieur», «engineer», «génie», «ingénierie» ou «engineering» ou une variante de ces mots, si ceux-ci évoquent l'exercice de la profession, sauf avec le consentement écrit de l'Ordre des ingénieurs de l'Ontario.
11. «Habitation», «logement» ou «housing», à moins que la société ne soit parrainée par le gouvernement du Canada, le gouvernement de l'Ontario ou une administration municipale de l'Ontario ou n'ait des liens avec l'un d'eux et que les statuts ou la demande envoyée au directeur s'accompagnent d'une preuve à cet effet.
12. «Ancien combattant», «veteran» ou toute abréviation ou tout dérivé de ces mots, sauf si ceux-ci ont été employés de façon continue dans la dénomination sociale pendant au moins vingt ans préalablement à son acquisition.

16 (1) La dénomination sociale d'une société ne doit, sans le consentement écrit des autorités compétentes, de l'université concernée ou de l'association professionnelle concernée, selon le cas, comprendre aucun mot ou expression qui donnent à entendre que la société :
